

Elevating Every Journey with **Smooth, Reliable Lifts**

Precision
Engineering in
EVERY LIFT

We focus on engineering
excellence, design aesthetics,
and after-sales service

About Us

As one of India's trusted elevator and escalator providers, we deliver world-class solutions for residential, commercial, industrial, and healthcare spaces. Our commitment goes beyond products. We focus on faster installation and reliable performance. We are redefining the vertical transportation for a smarter tomorrow.

Vision: To be India's most trusted partner for safe, sustainable, and innovative elevator solutions.

Mission: To elevate lives with technology-driven, eco-conscious, and customer-first solutions.

At Liftswala, we believe mobility should be **smooth, safe, and sustainable.**

Our Clients

Why Choose **Lifswala**?

- **Smooth Ride Guarantee**
Advanced engineering for jerk-free travel
- **Eco-Friendly Technology**
Energy-efficient systems that reduce your carbon footprint
- **Certified Quality & Safety**
Built to Indian and global safety standards
- **Faster Installation**
Minimizing project delays and downtime
- **Pan-India Service Network**
Expert support and maintenance wherever you are
- **Reliable Performance**
Focused on functionality and long-term durability

OUR SERVICES

Reliable Lift Services Anytime, Anywhere

We believe in a future where elevators and escalators are not just machines but lifelines of infrastructure. With eco-conscious designs, precision manufacturing, and customer-first service, Lifswala is on a mission to make India's mobility smoother, safer, and smarter.

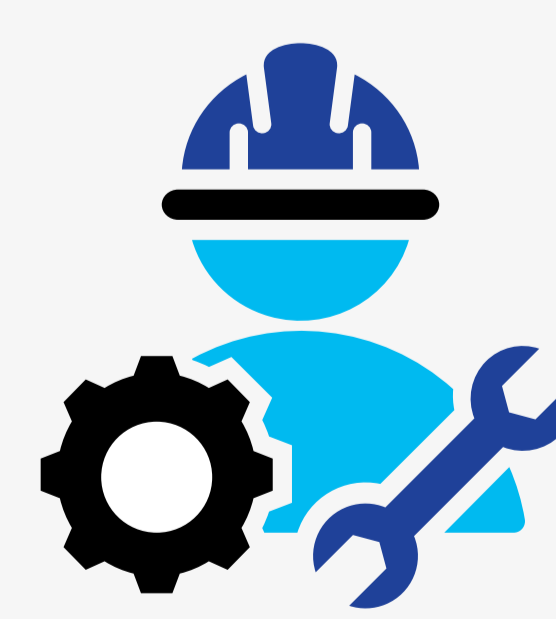

Design & Customization

Tailored solutions for your building needs

Installation & Testing

Delivered on time with zero compromise on safety

24x7 Maintenance

A dedicated service network always at your doorstep

Modernization

Upgrading old lifts with the latest technology

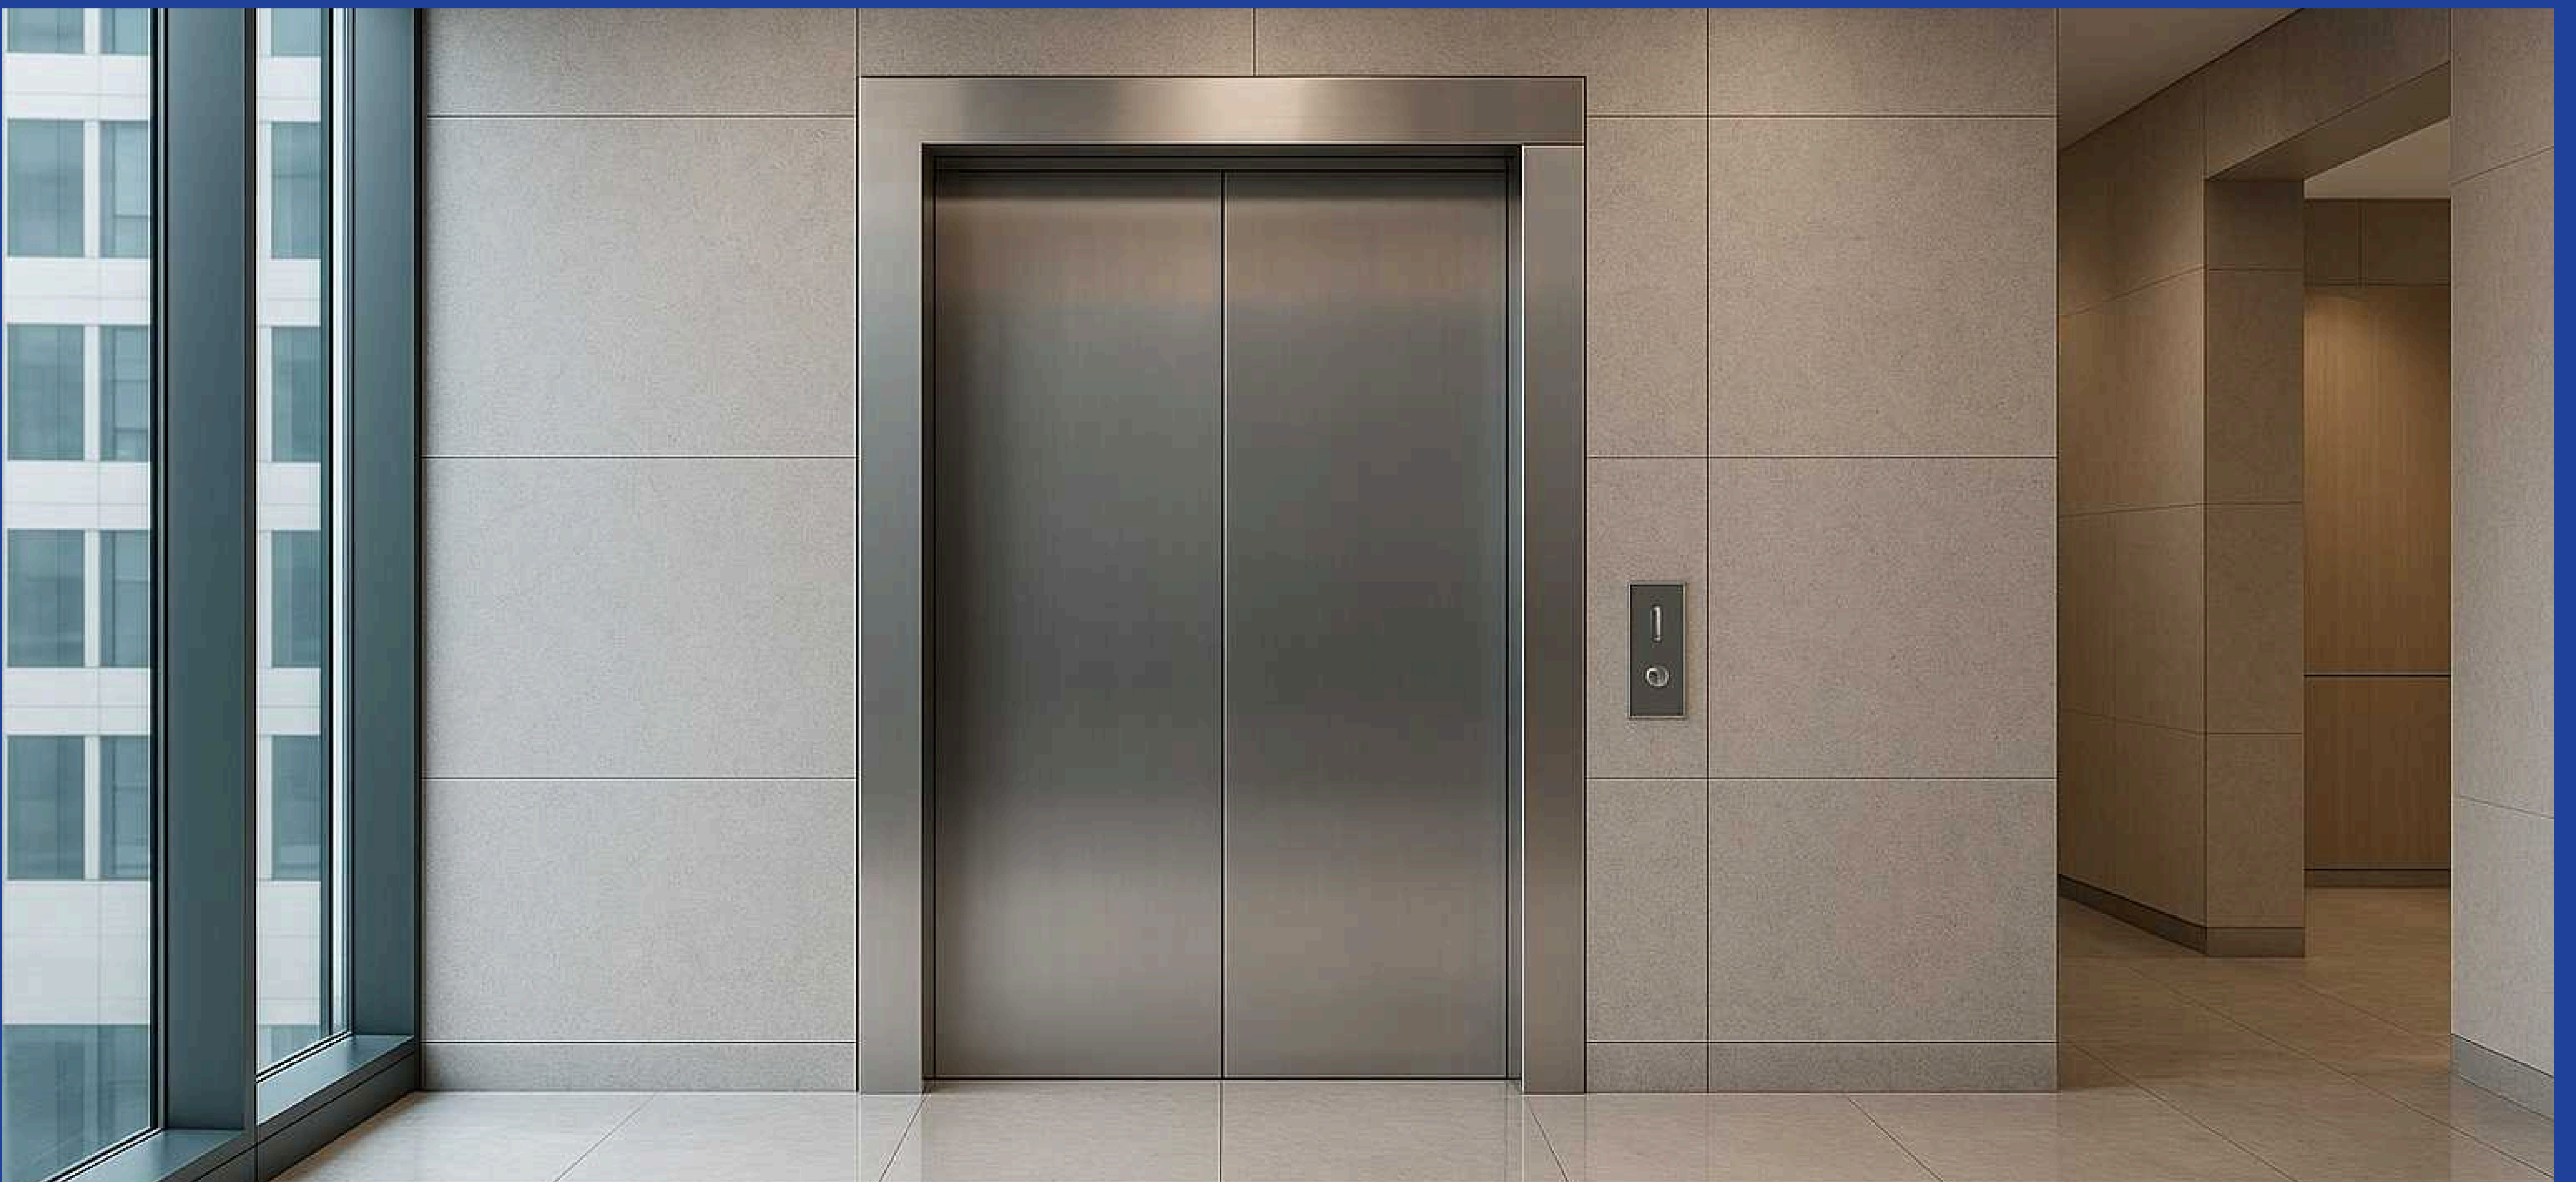

Our Products

1. Residential Lifts

Elegant Living, Elevated Comfort

Our Residential Lifts are designed to bring luxury, convenience, and accessibility to modern homes. Compact yet powerful, they blend seamlessly with your interiors while ensuring safety and comfort.

2. Commercial Elevators

Efficiency Meets Modern Design

Our Commercial Elevators are engineered for high-traffic environments, ensuring smooth mobility for offices, malls, and public spaces. Built for durability and efficiency, they handle heavy usage with ease.

3.

Hospital & Stretcher Elevators

Safe, Spacious, and Hygienic Mobility

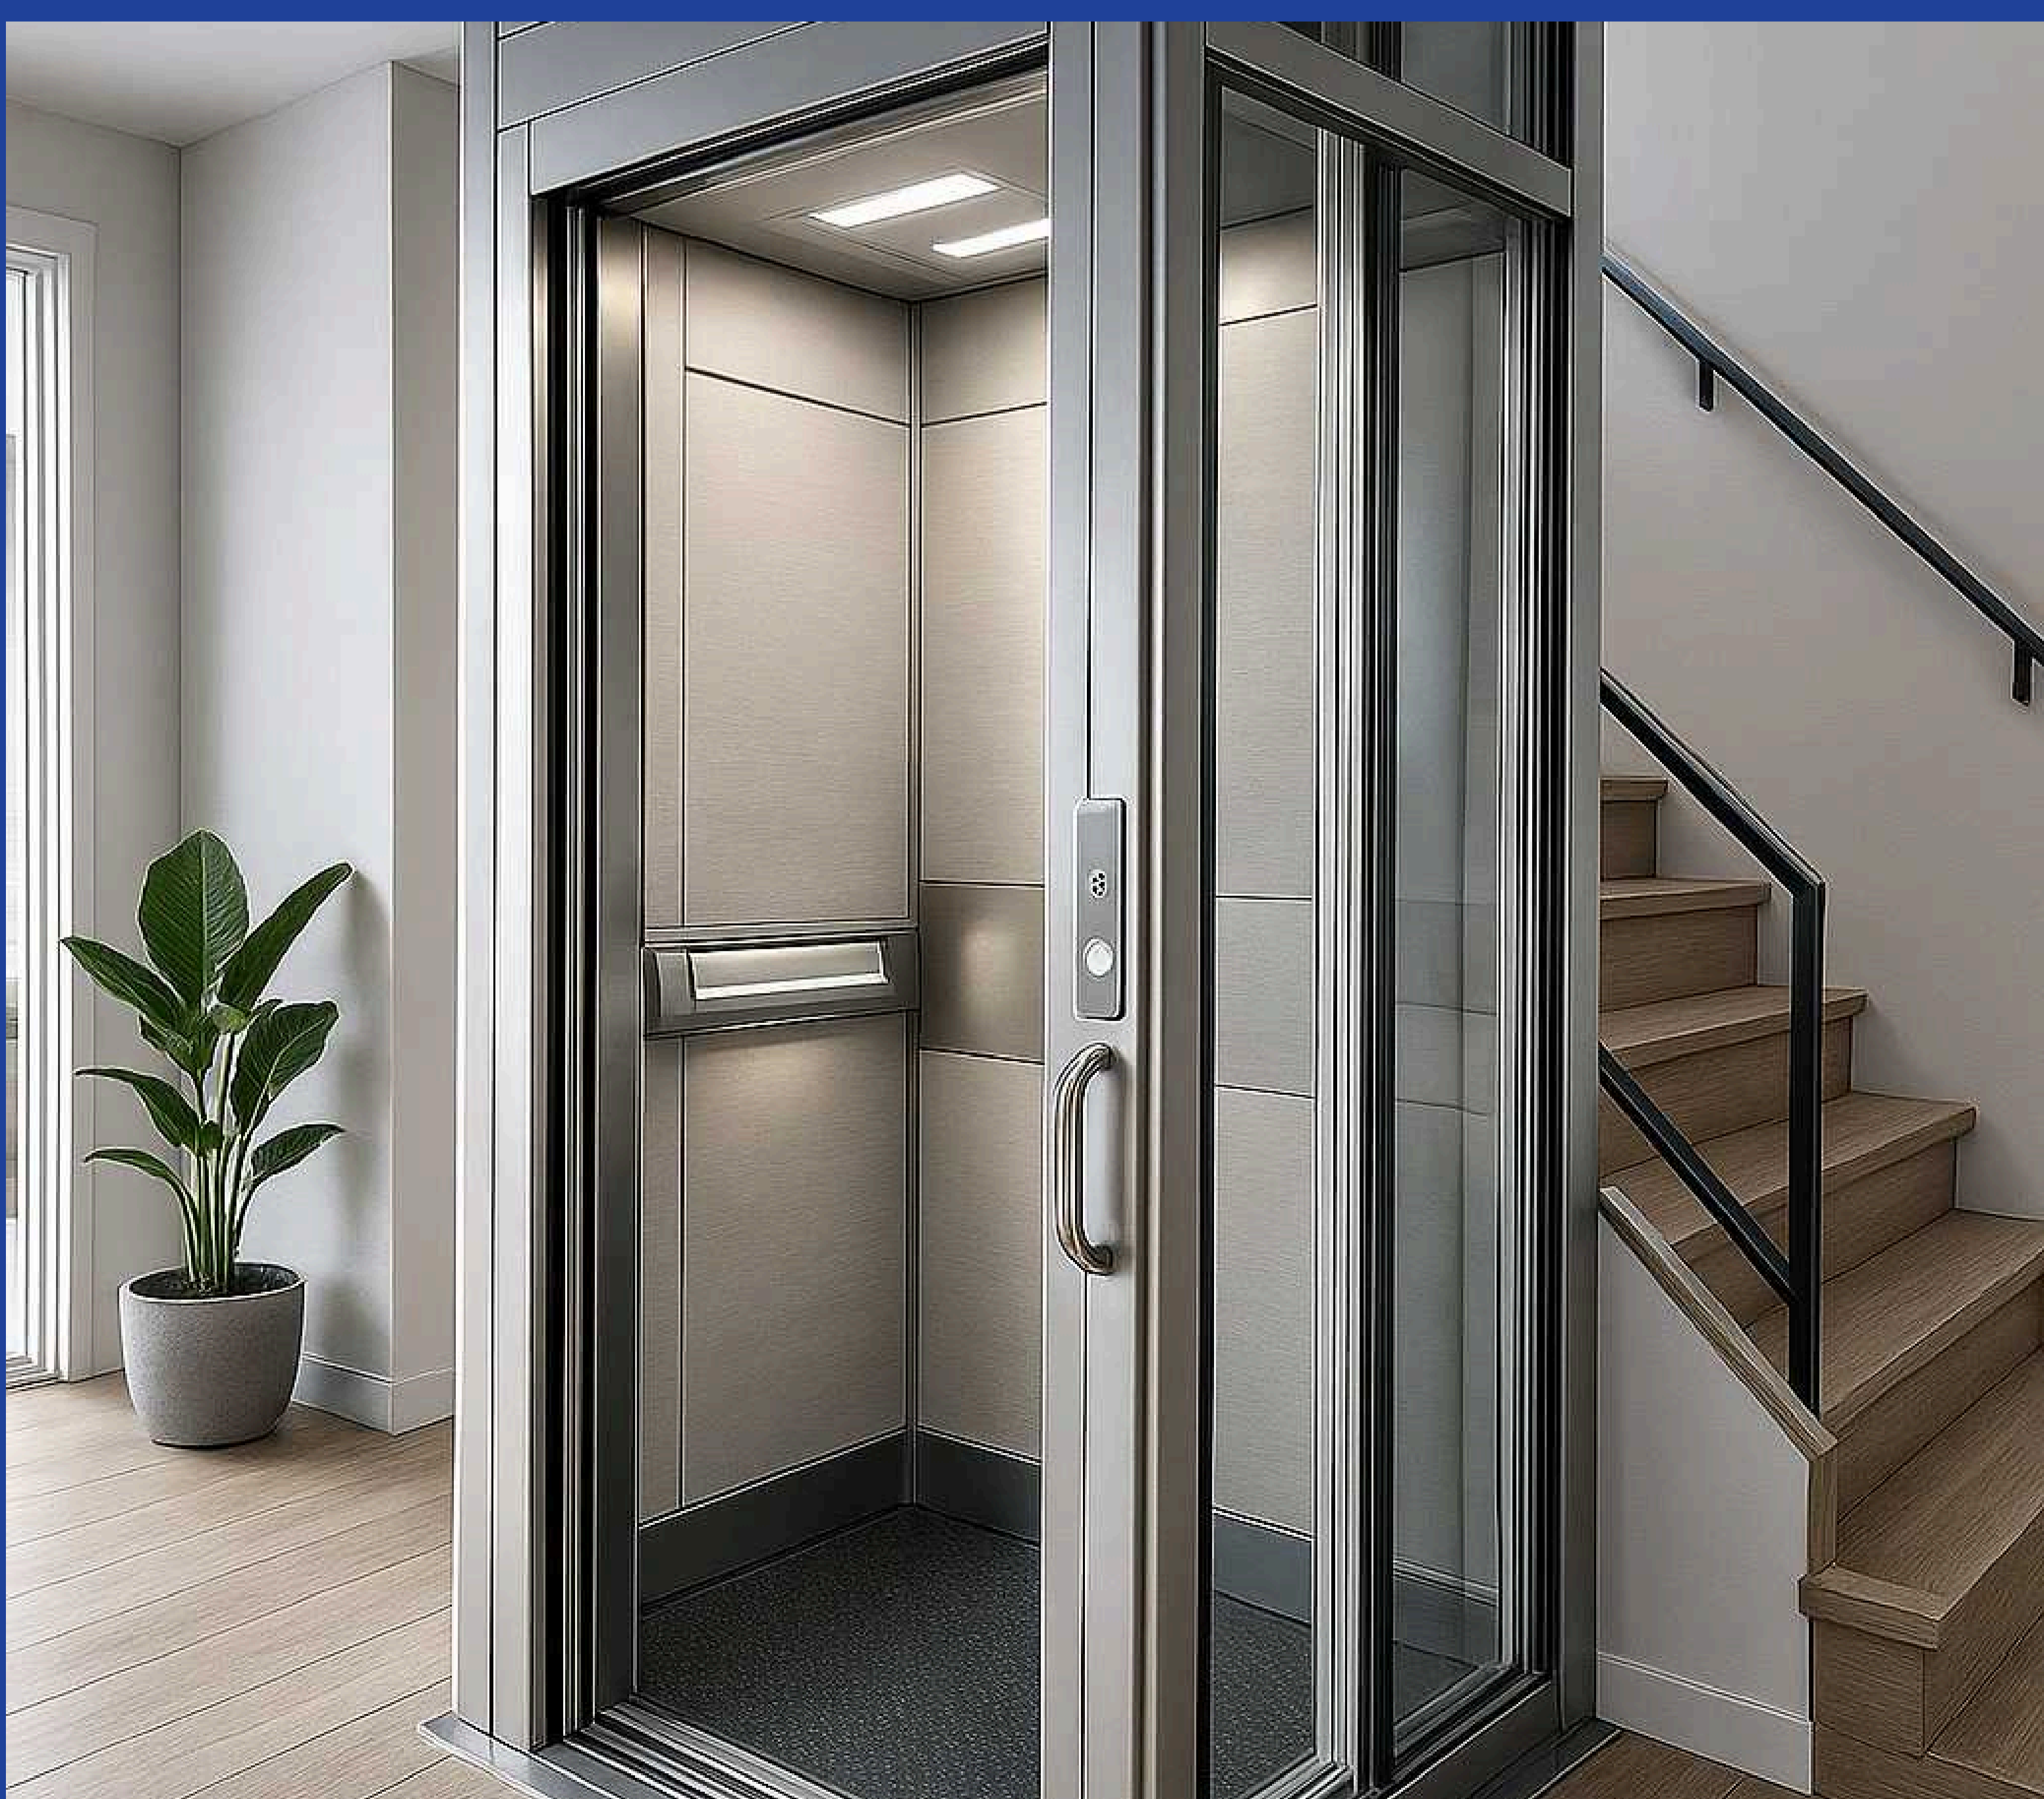

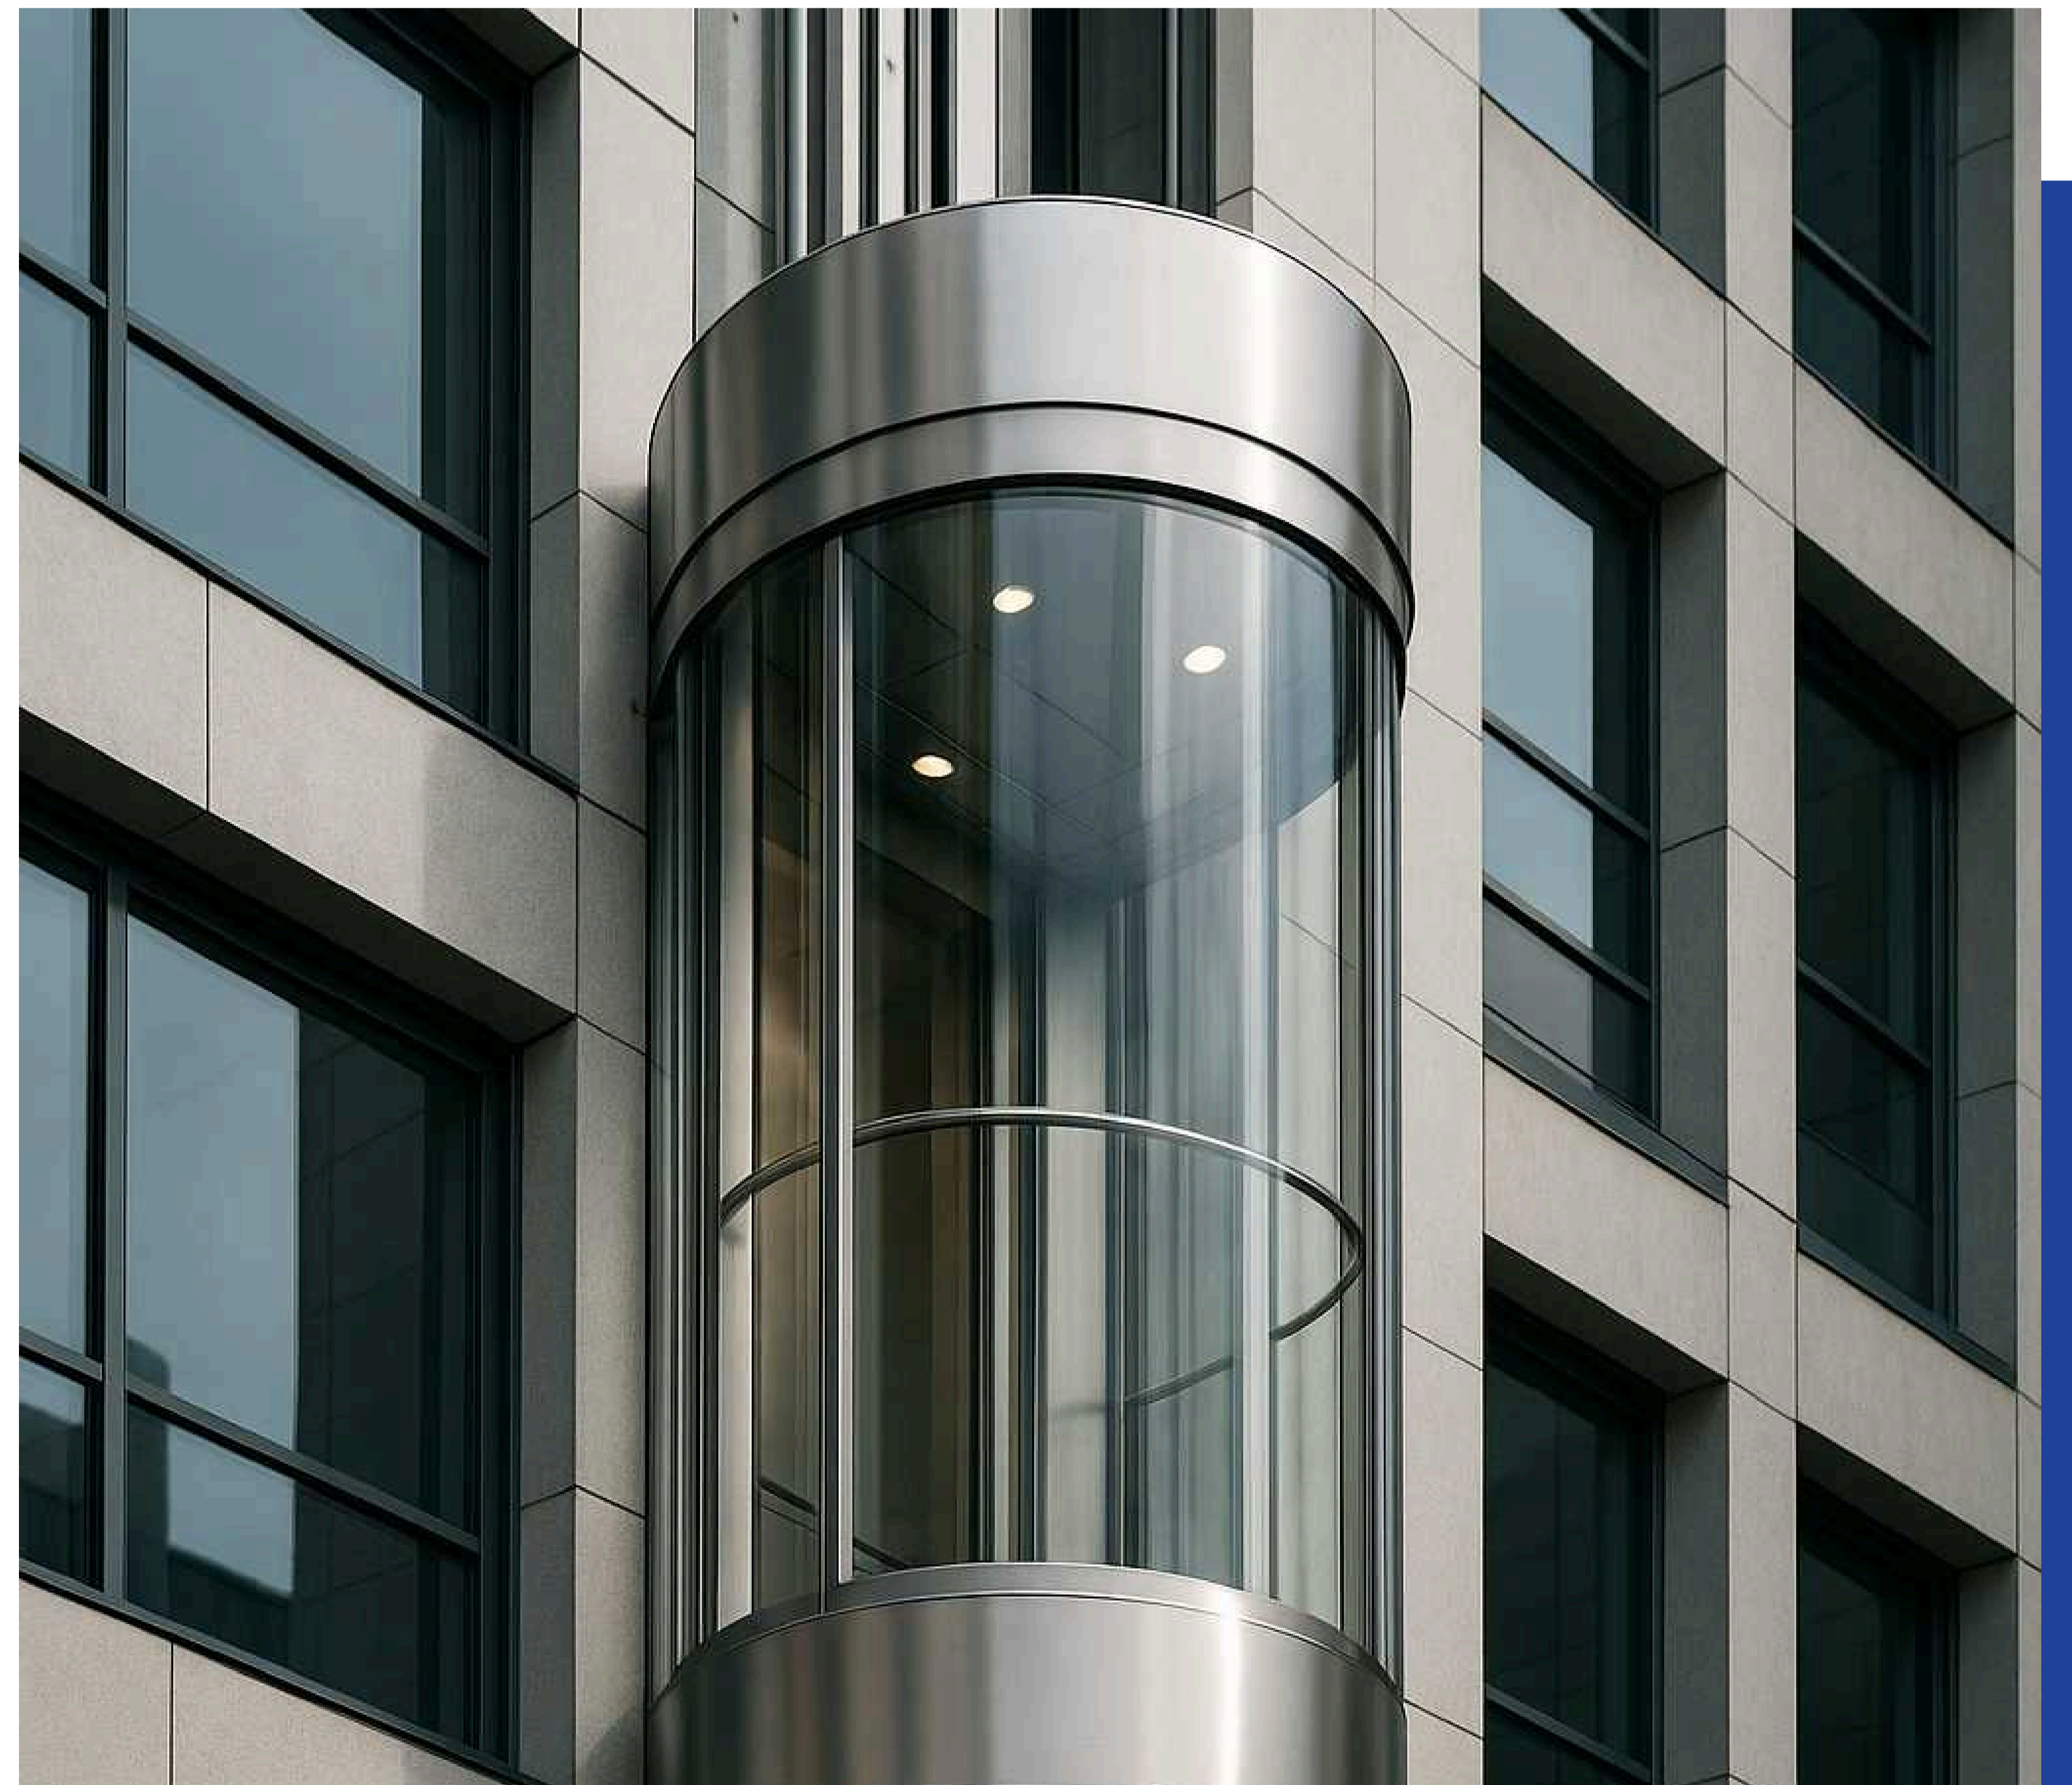

Our Hospital Elevators are specially designed to meet the demanding needs of healthcare facilities, ensuring the safe transfer of patients, stretchers, and equipment.

4.

Capsule Elevators

Aesthetic Elevators for Modern Architecture

Our Capsule Elevators combine cutting-edge technology with stunning design, offering panoramic glass views for luxury spaces.

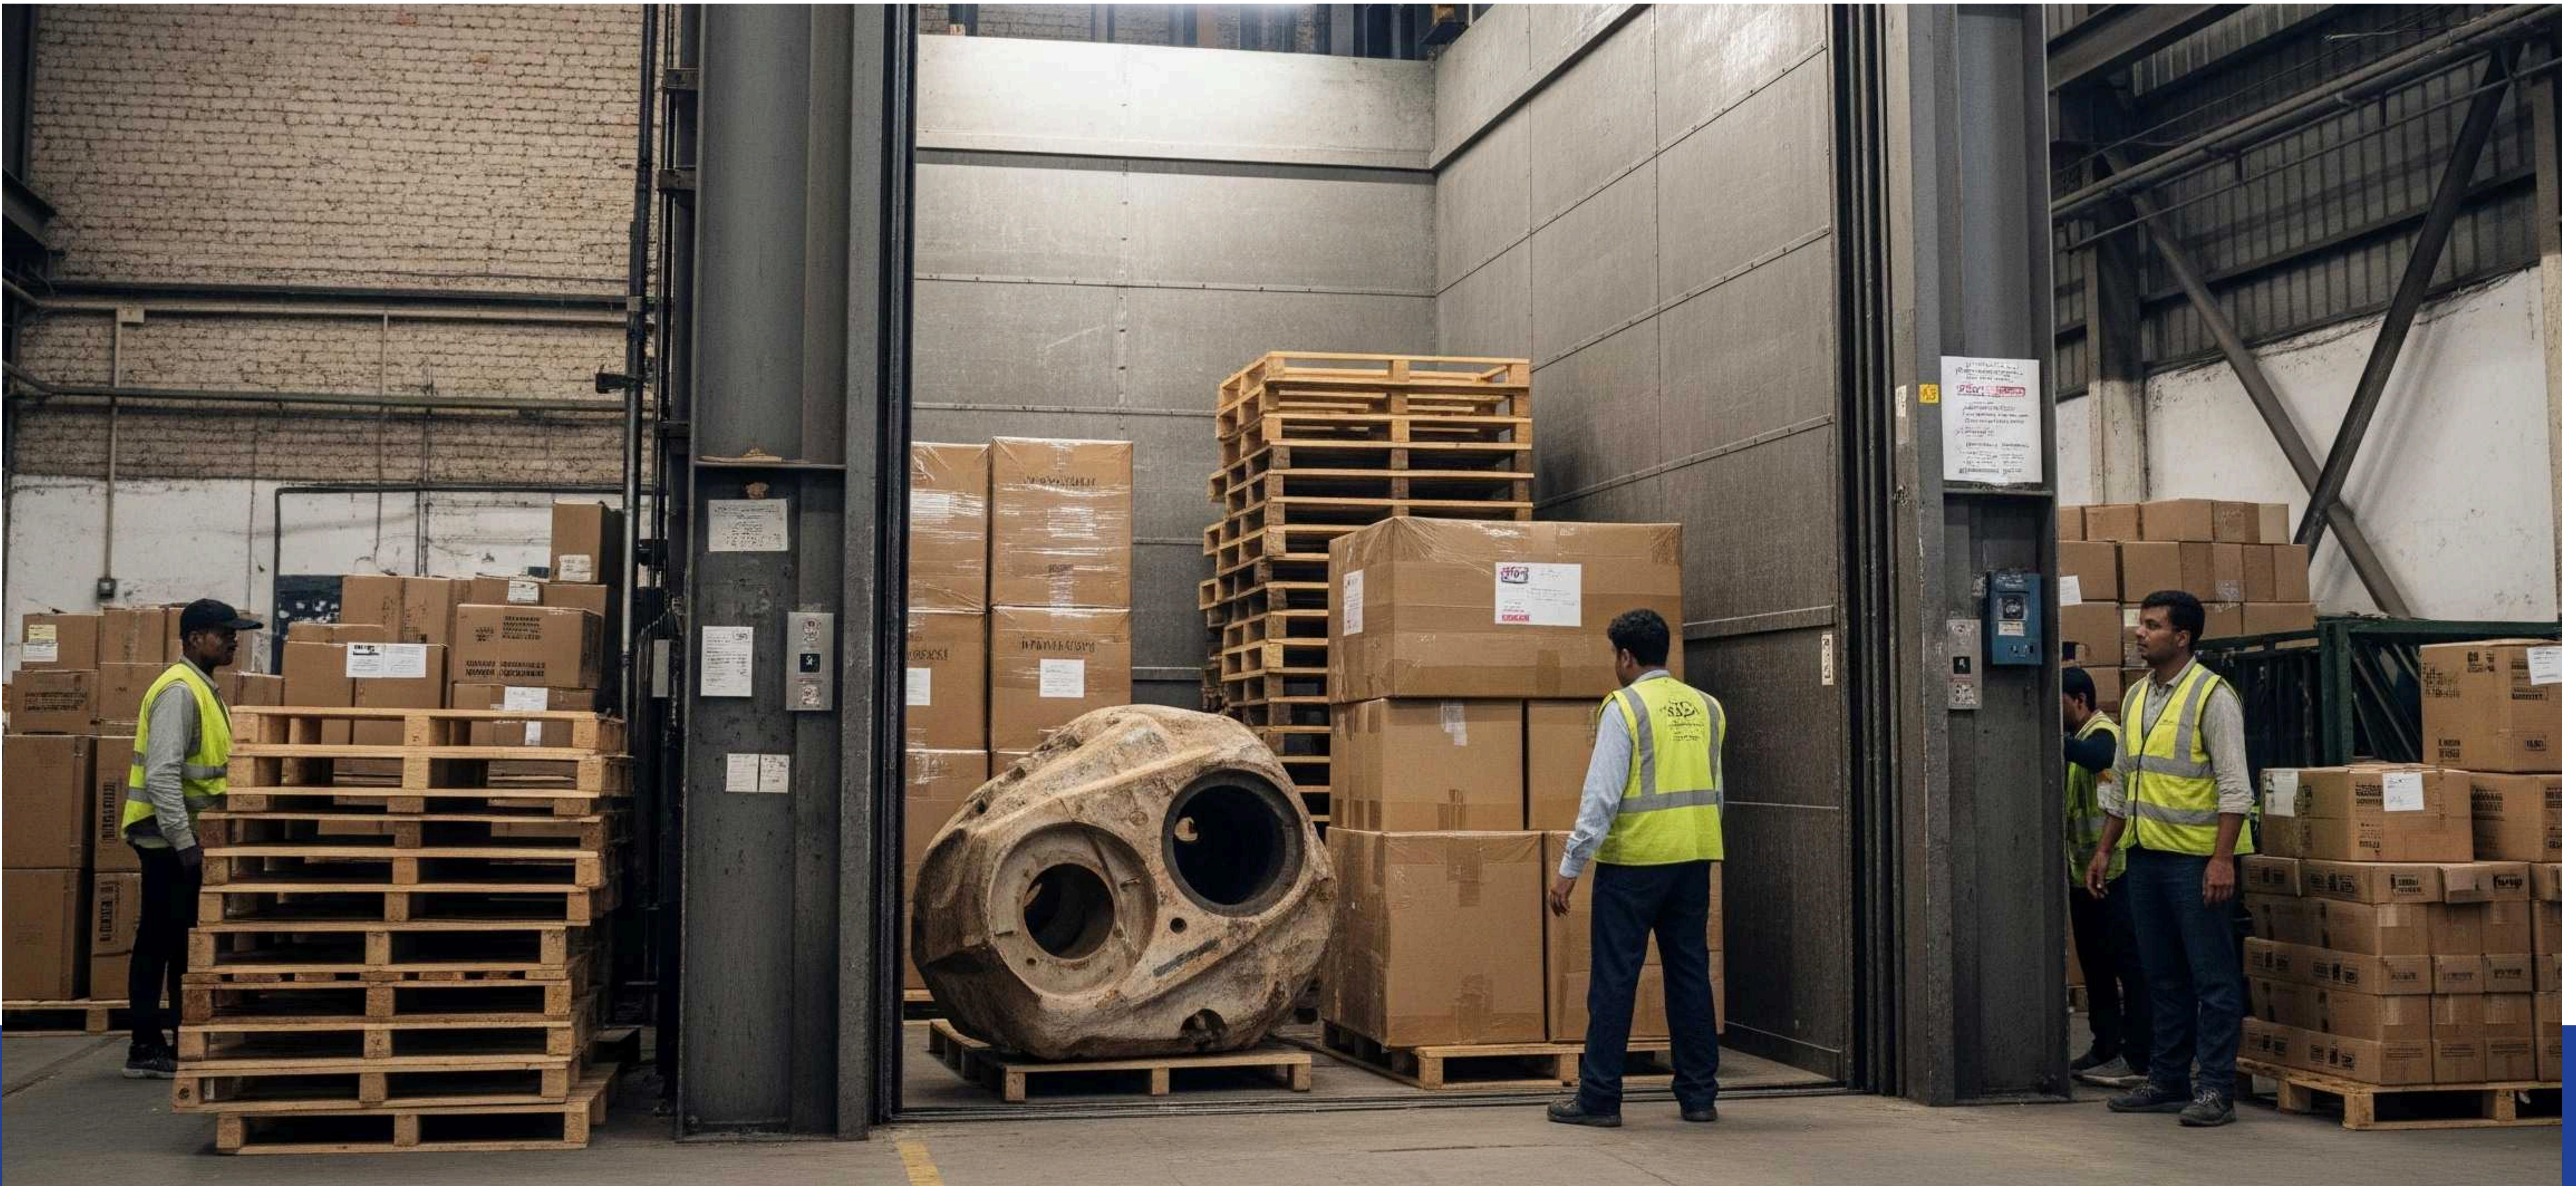

5.

MRL & Gearless Lifts

Modern, Space-Saving, and Efficient

Our MRL (Machine Room-Less) & Gearless Lifts offer advanced technology that eliminates the need for a separate machine room, saving space and reducing energy usage.

Our Products

6. Goods & Freight Elevators

Heavy-Duty Solutions for Industrial Needs

Our Freight Elevators are built to handle large, heavy loads with precision and durability, making them ideal for warehouses, factories, and logistics centers. Built for strength, safety, and performance.

7. Dumbwaiter Lifts

Small Lift, Big Utility

Our Dumbwaiter Lifts are compact lifts designed for moving food, documents, and small goods quickly and efficiently. We deliver efficient, durable, and customized dumbwaiters tailored to your service needs.

8.

Escalators & Moving Walkways

Seamless Flow of People

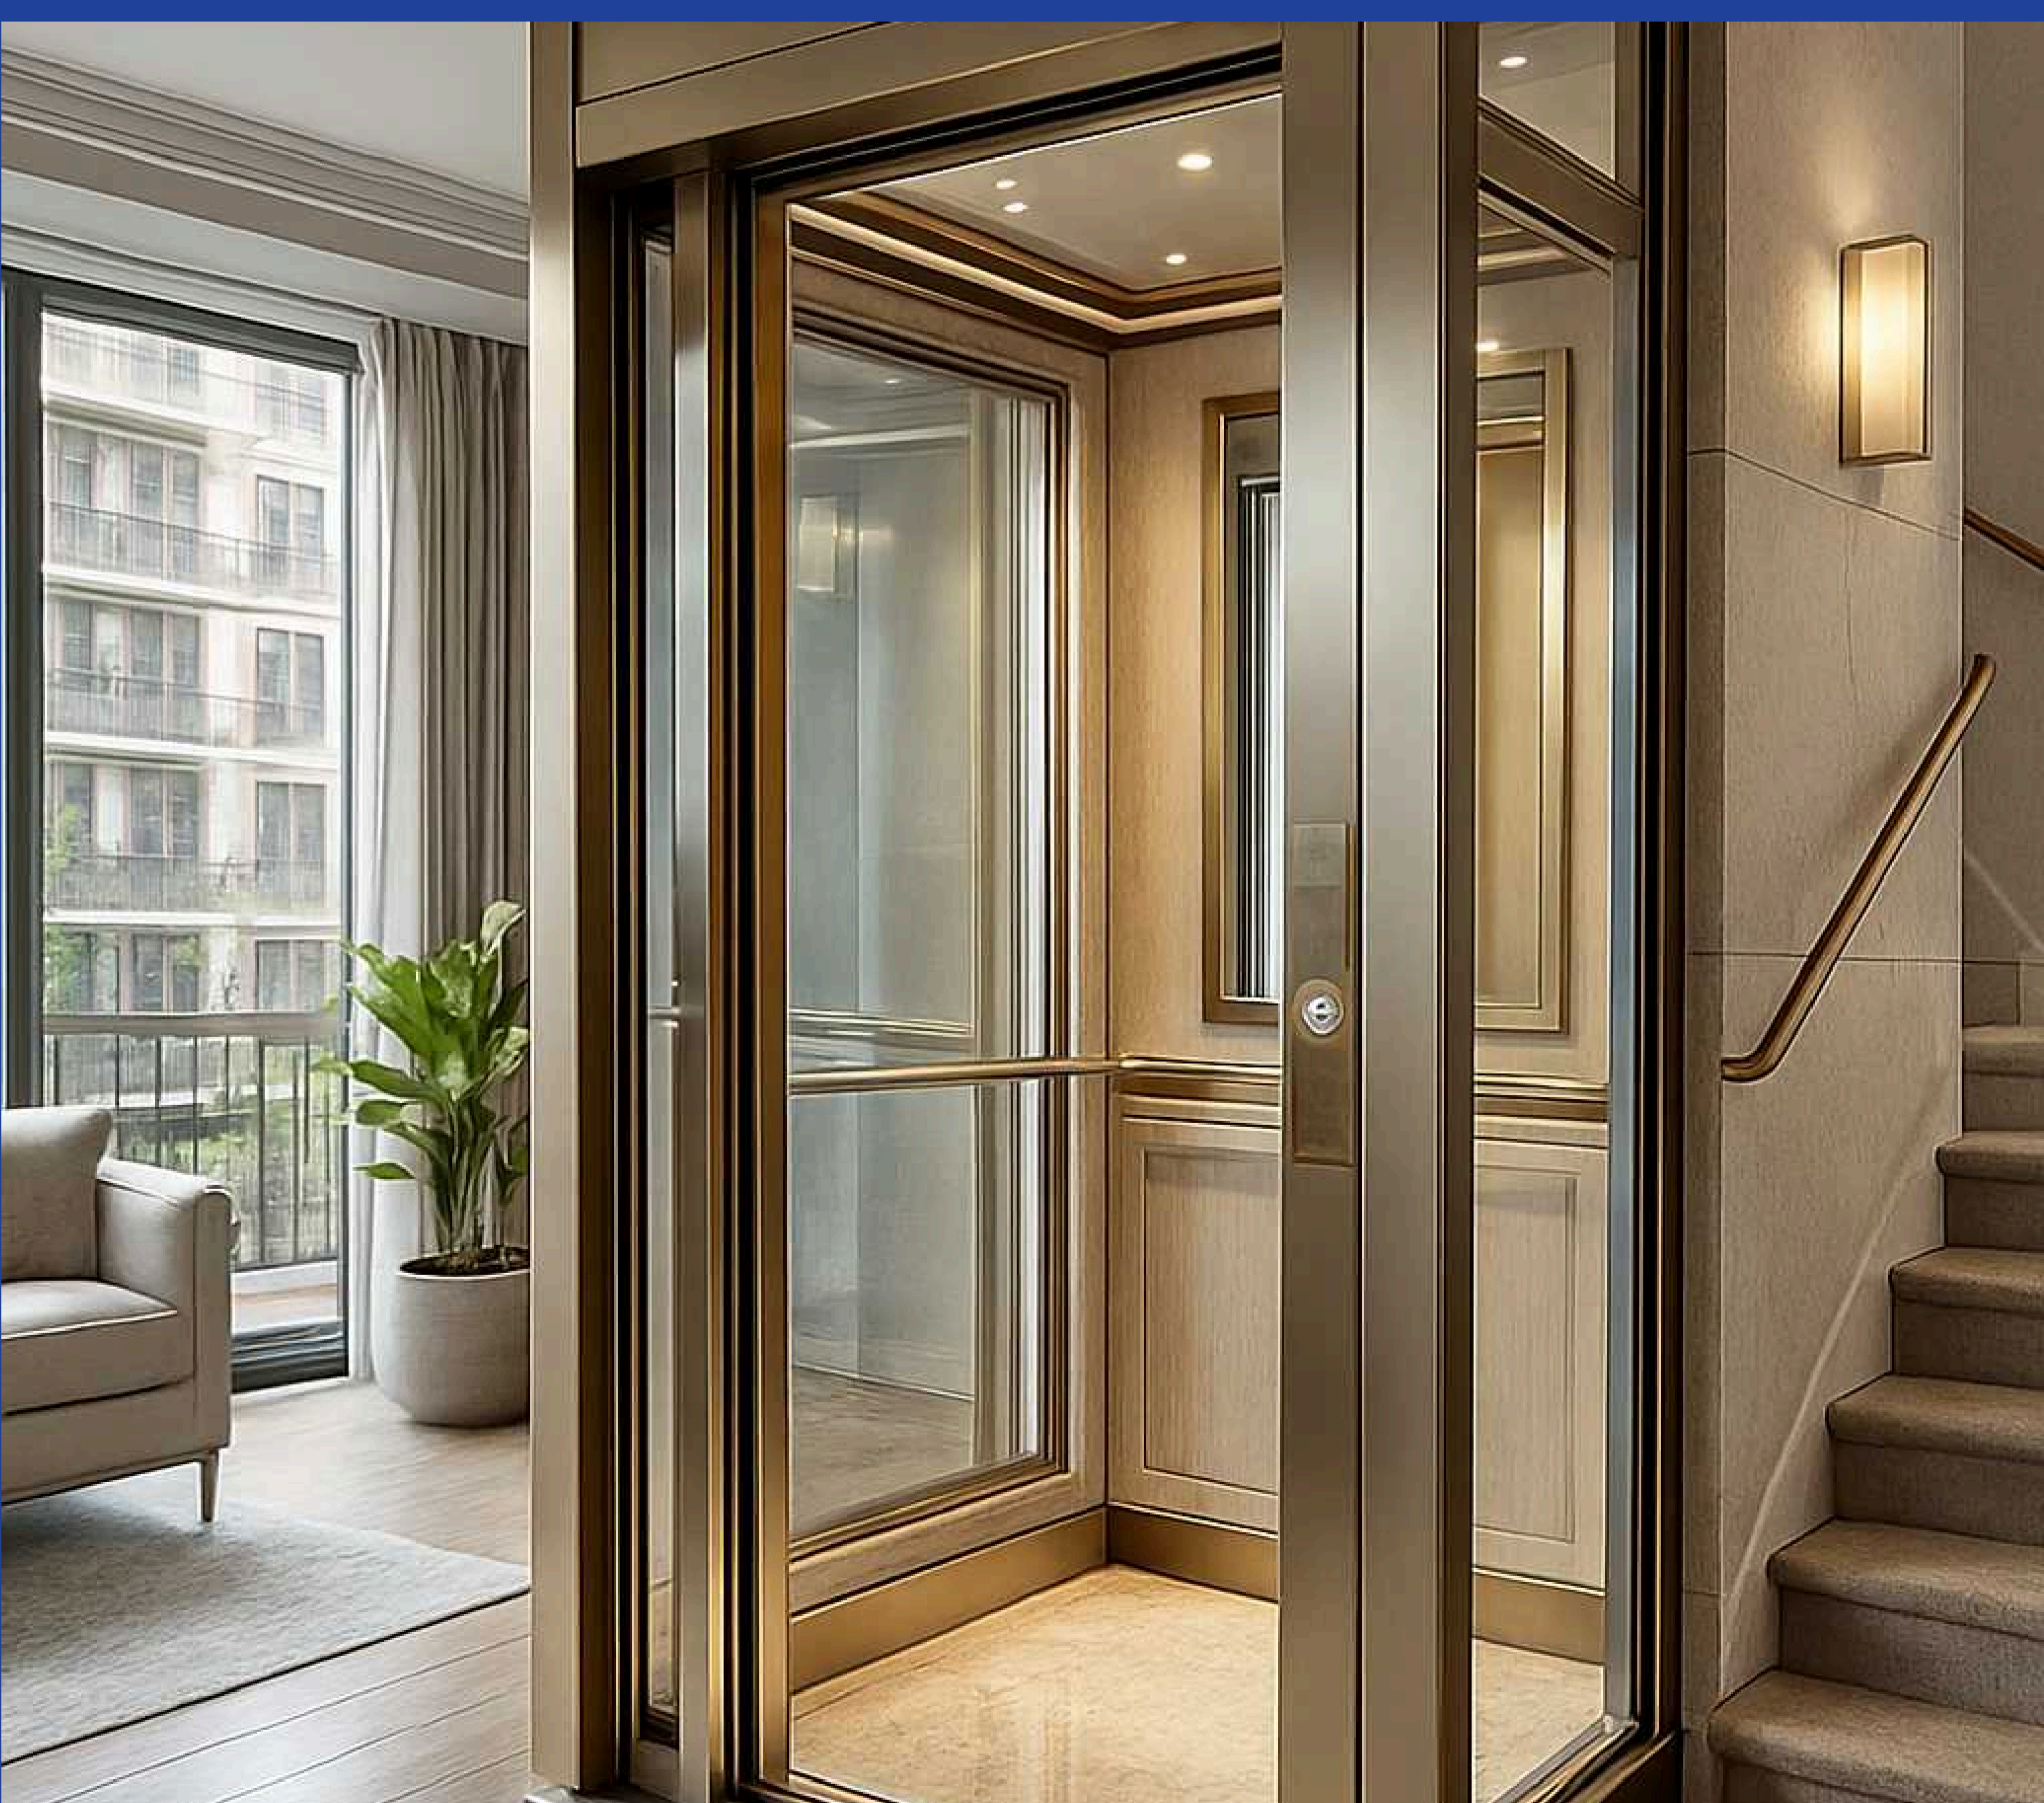

Our Escalators & Moving Walkways ensure smooth passenger movement in high-traffic areas like malls, airports, and metro stations.

9.

Automobile Elevators

Lifting Cars with Confidence

Our Automobile Elevators are designed to transport vehicles safely and efficiently, ensuring smooth parking and showroom operations. Strong, safe, and high-performance automobile elevators trusted by auto businesses.

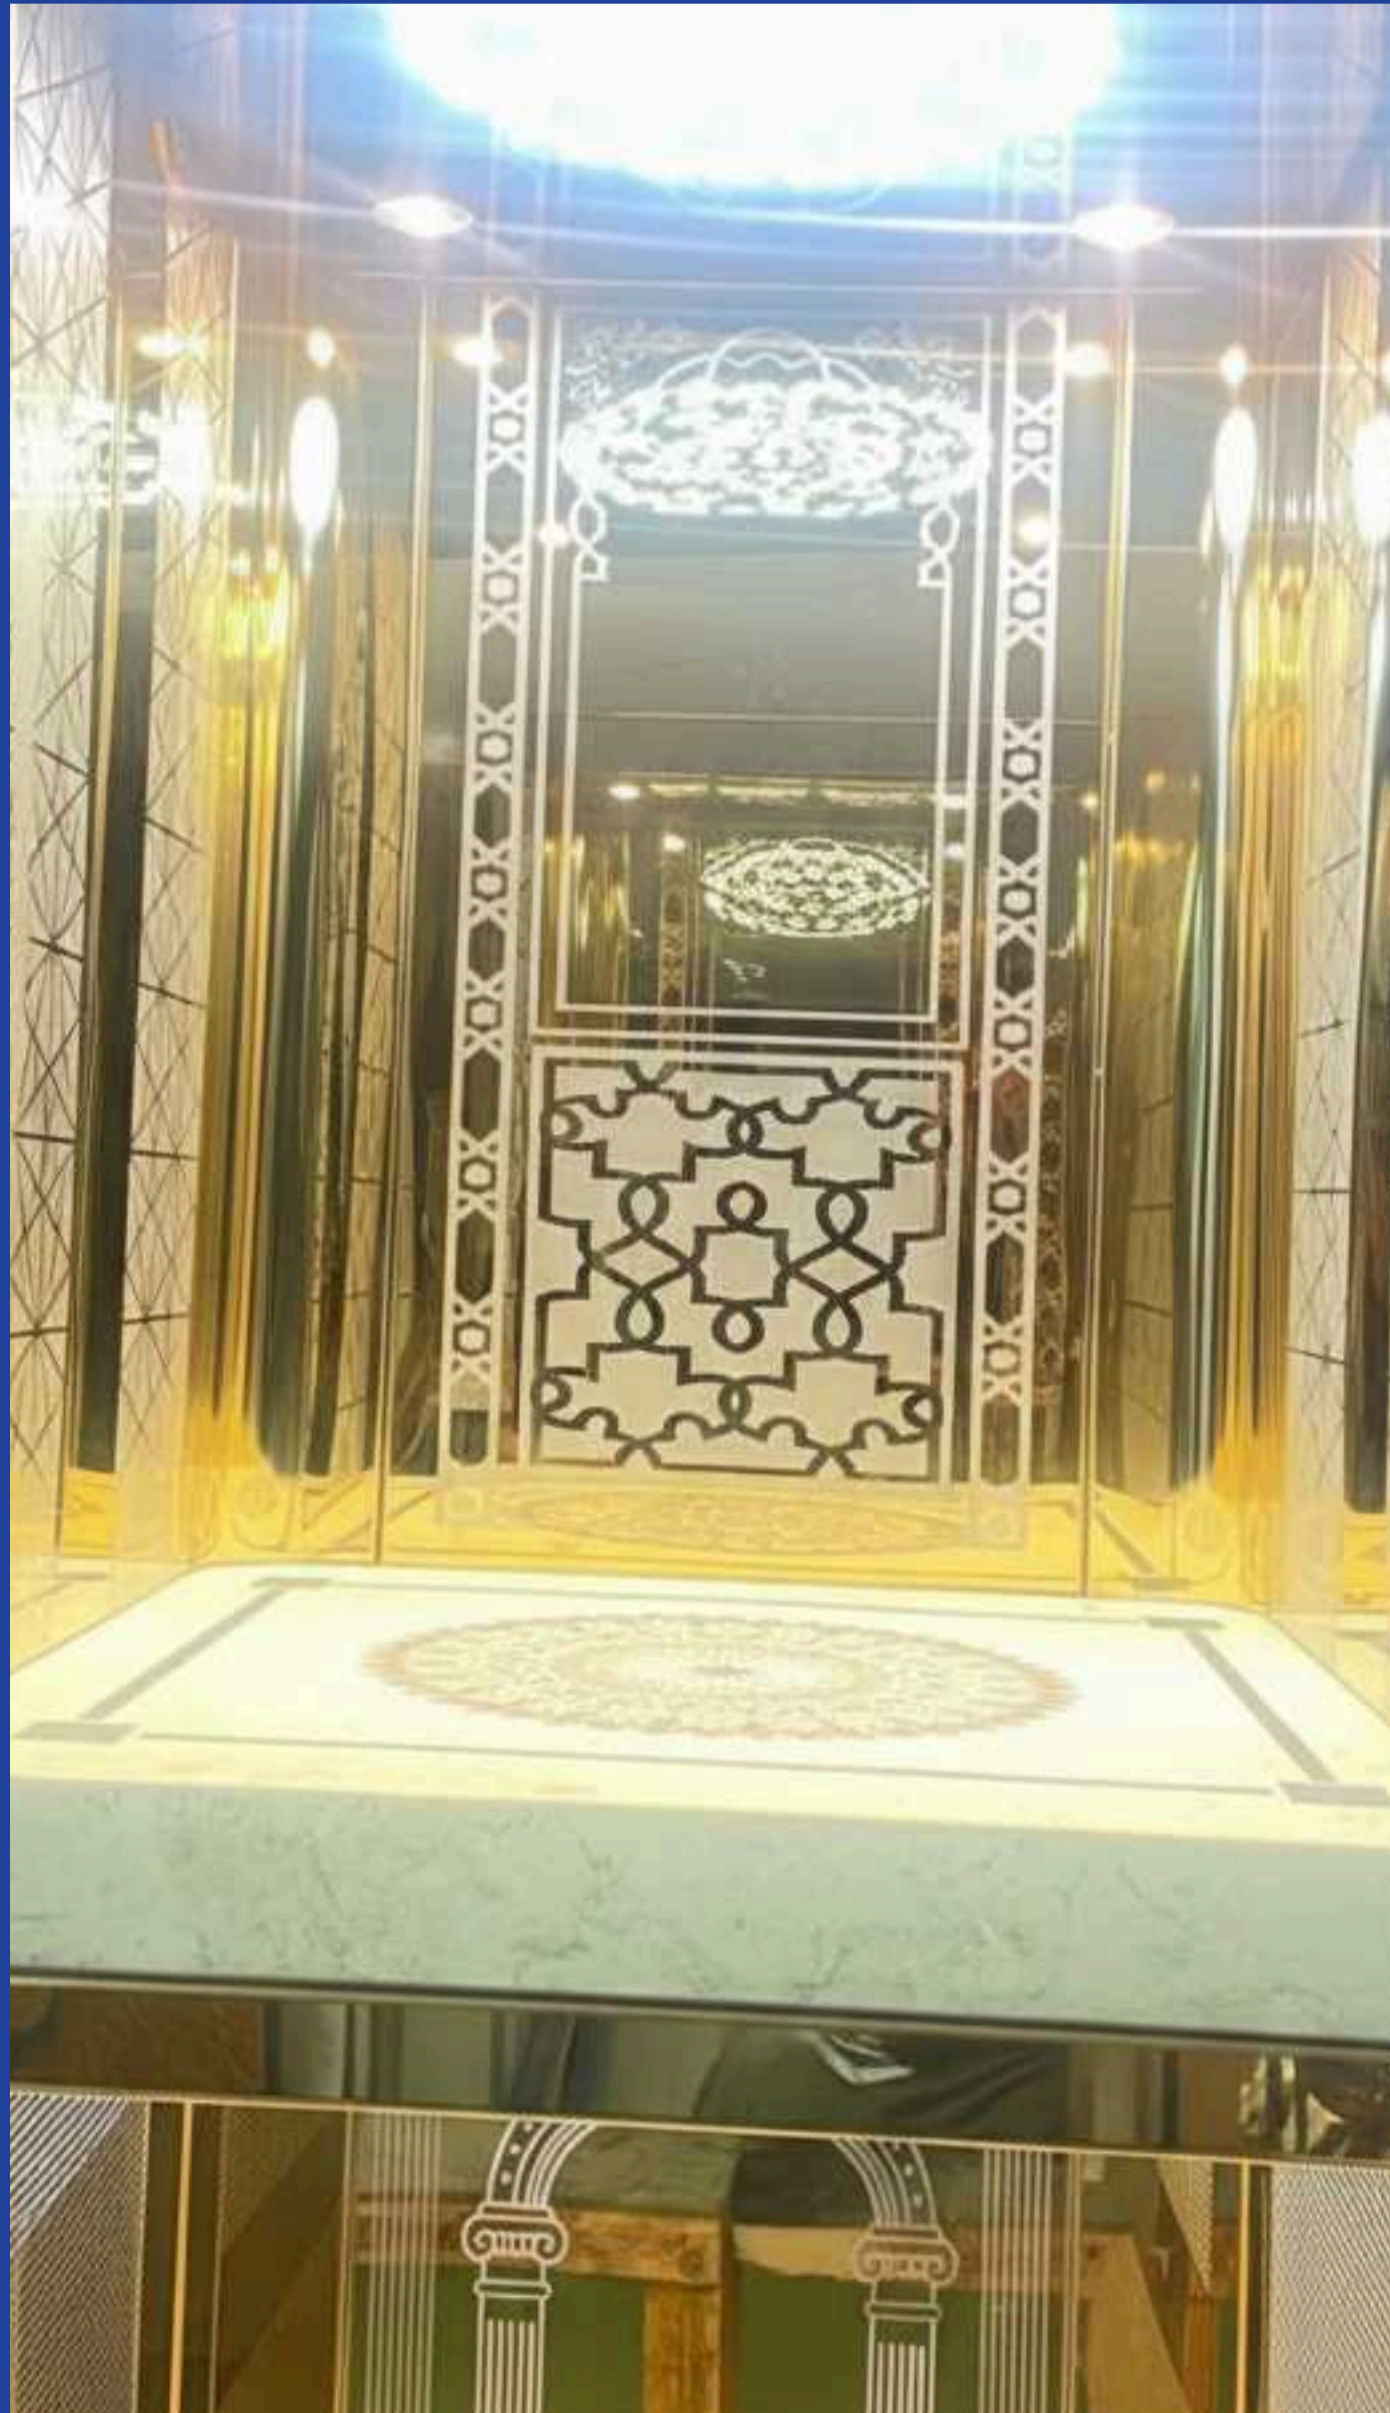

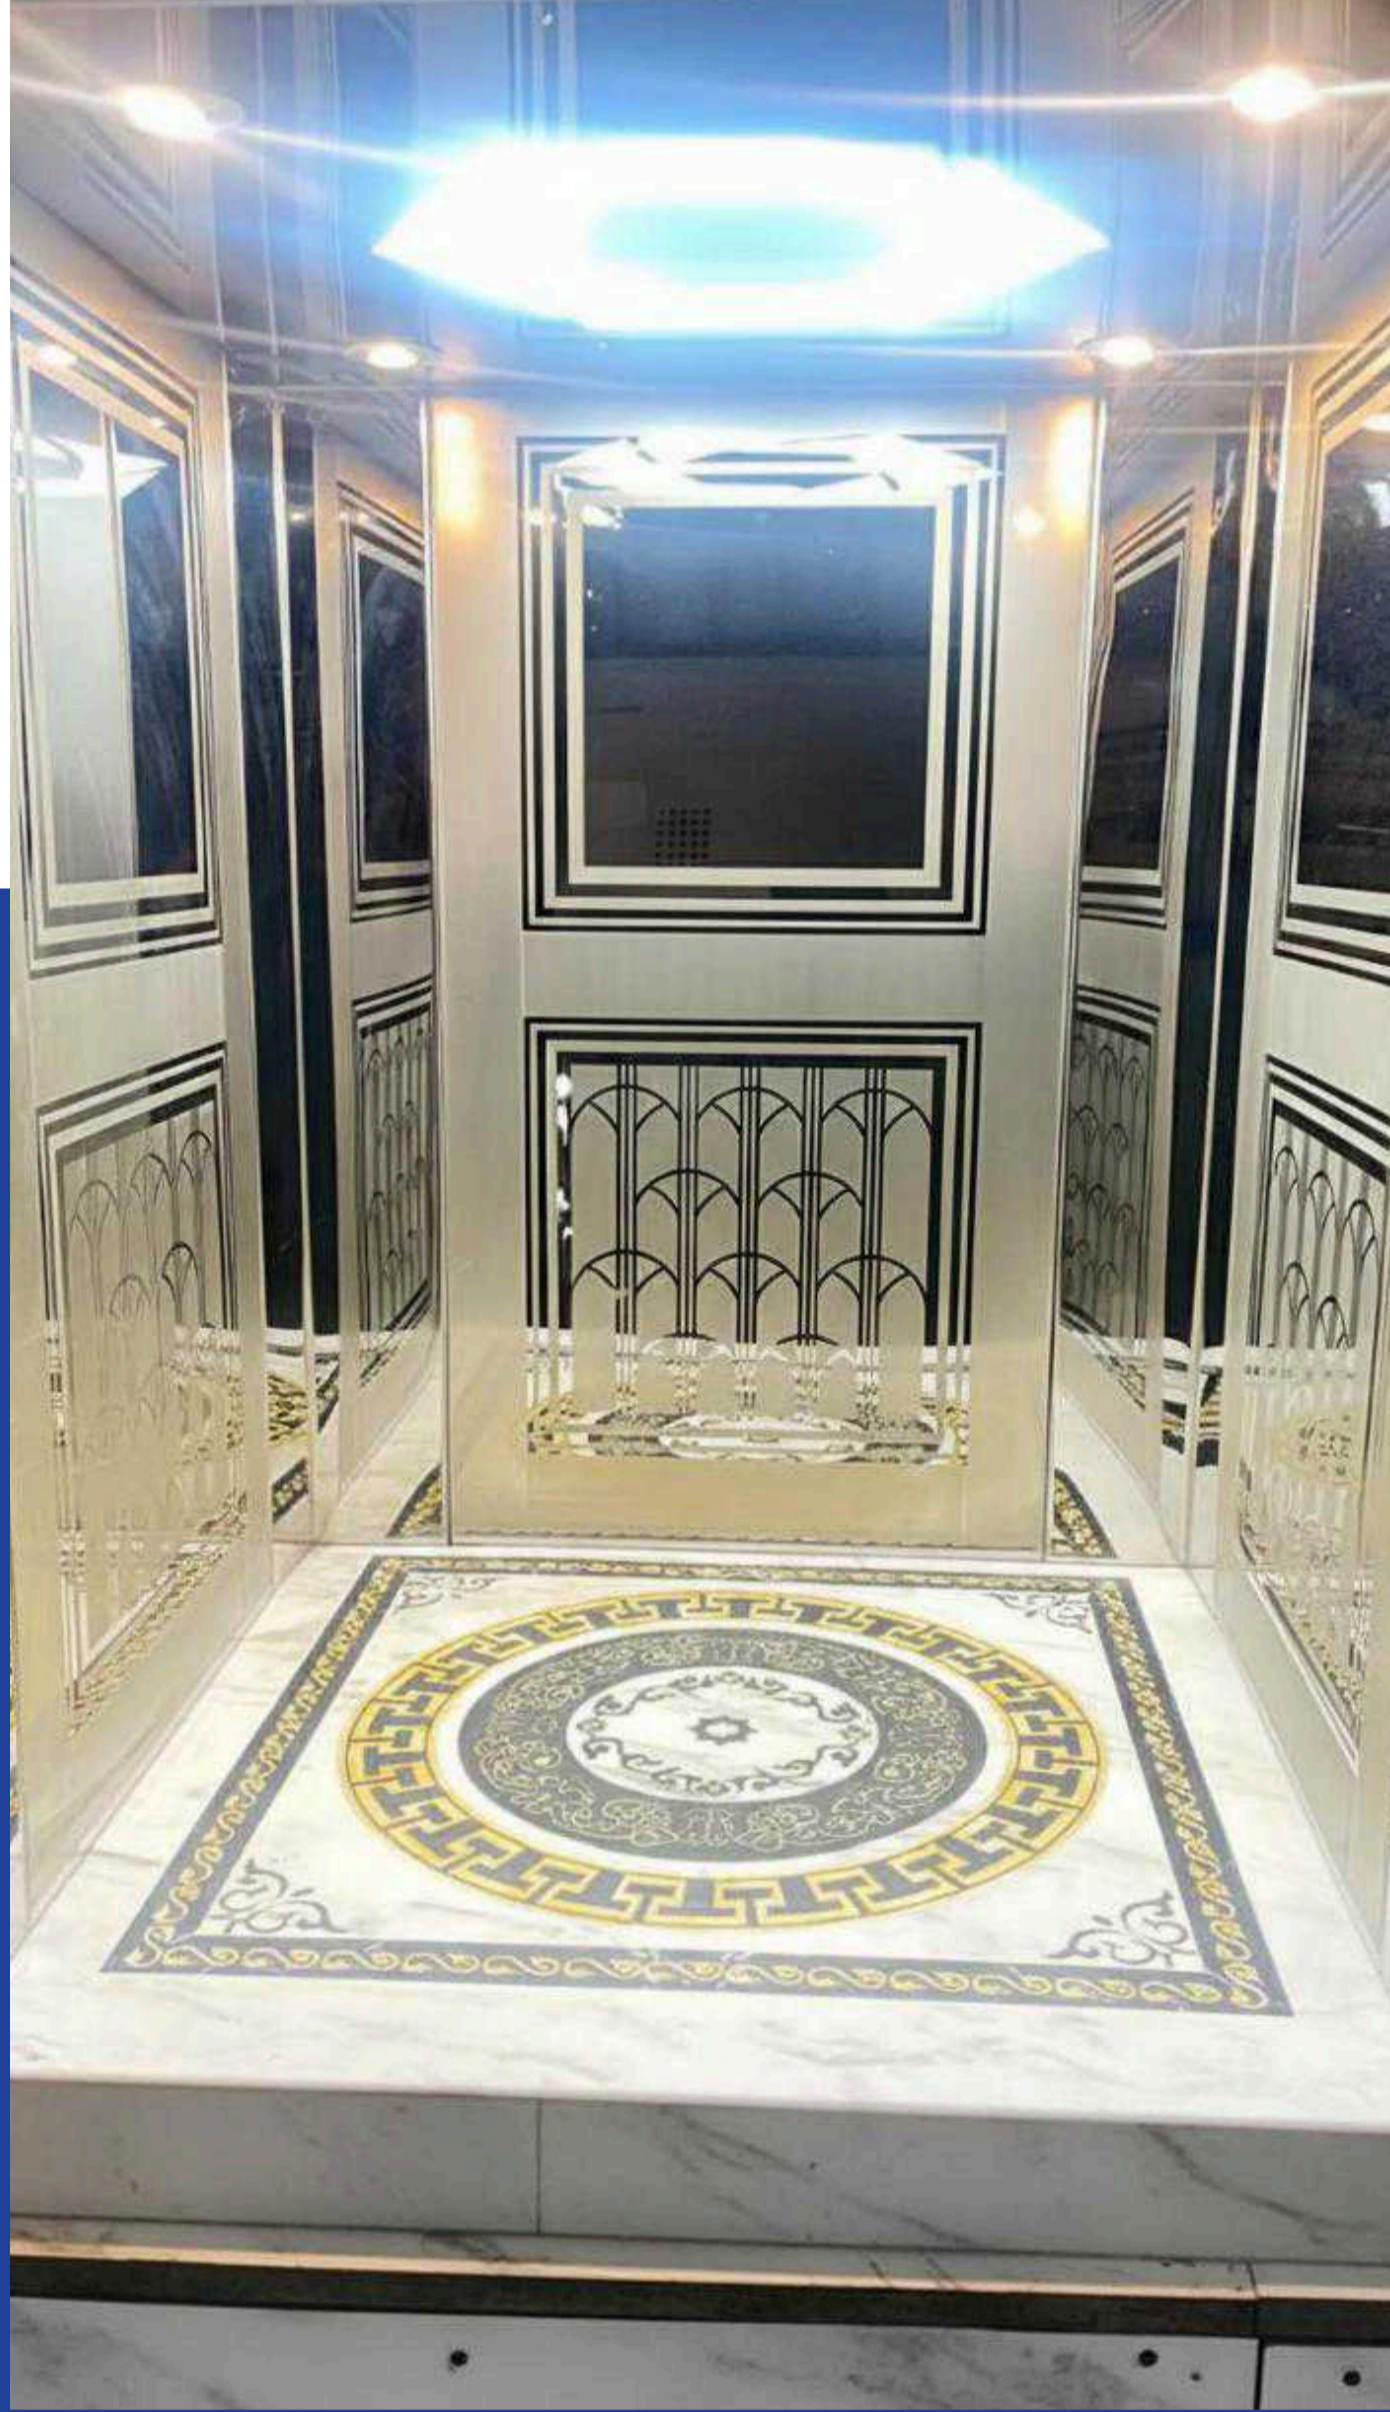

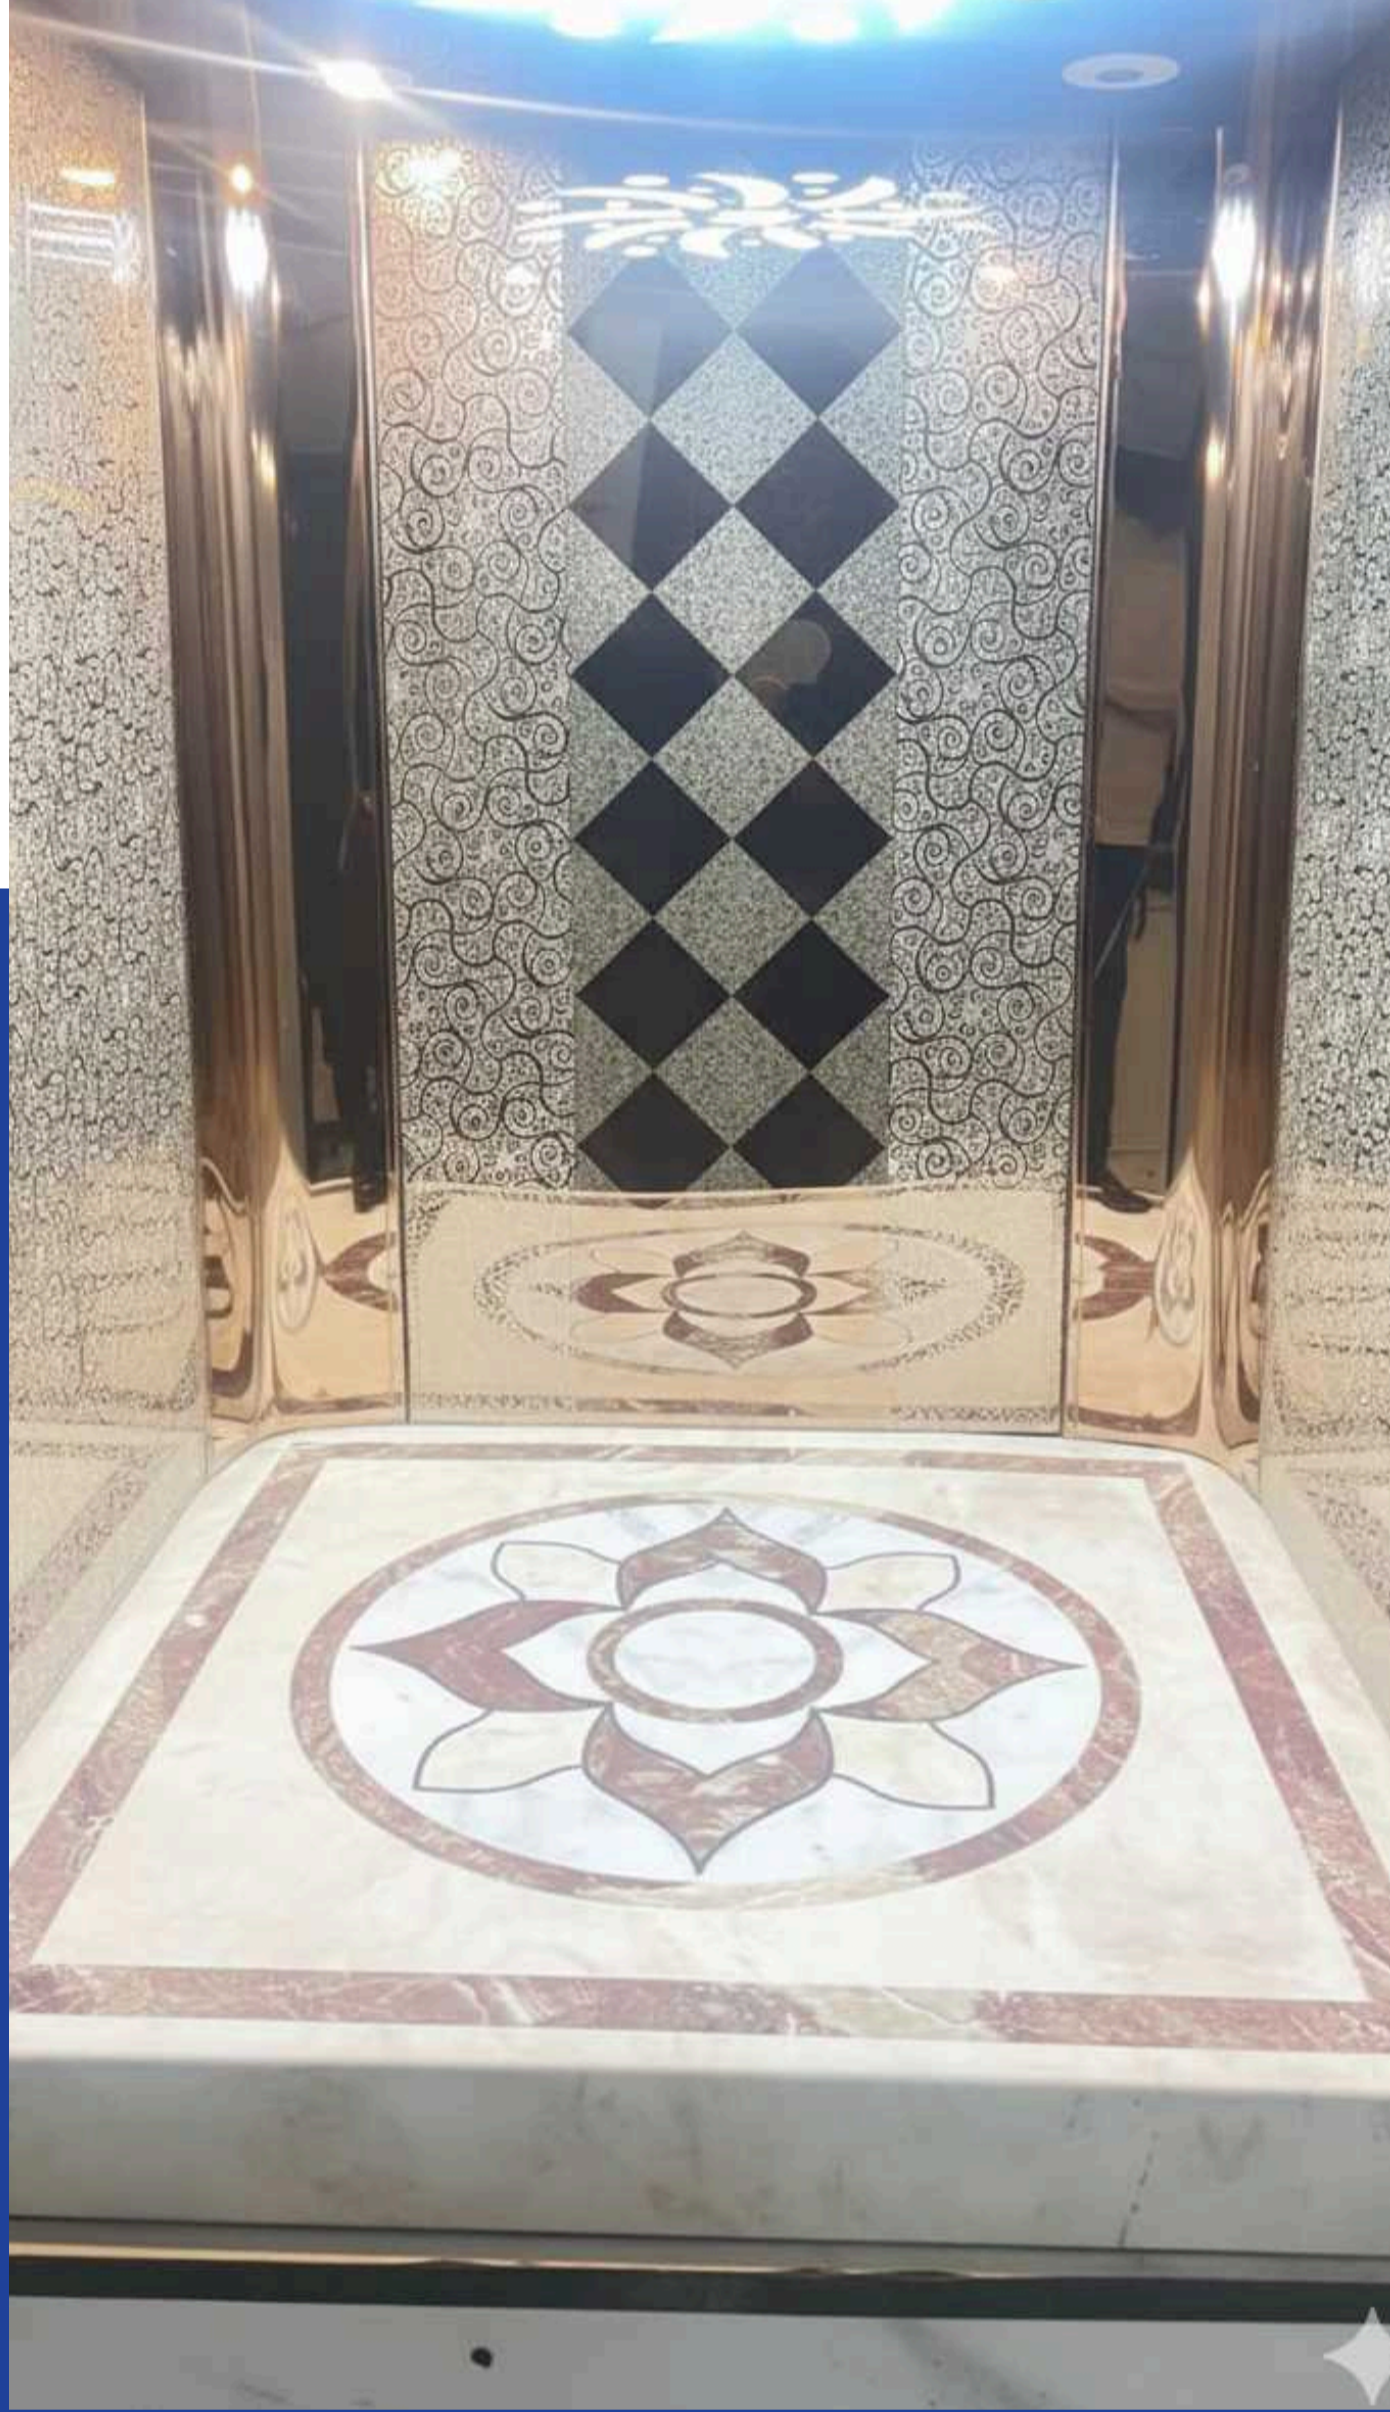

10.

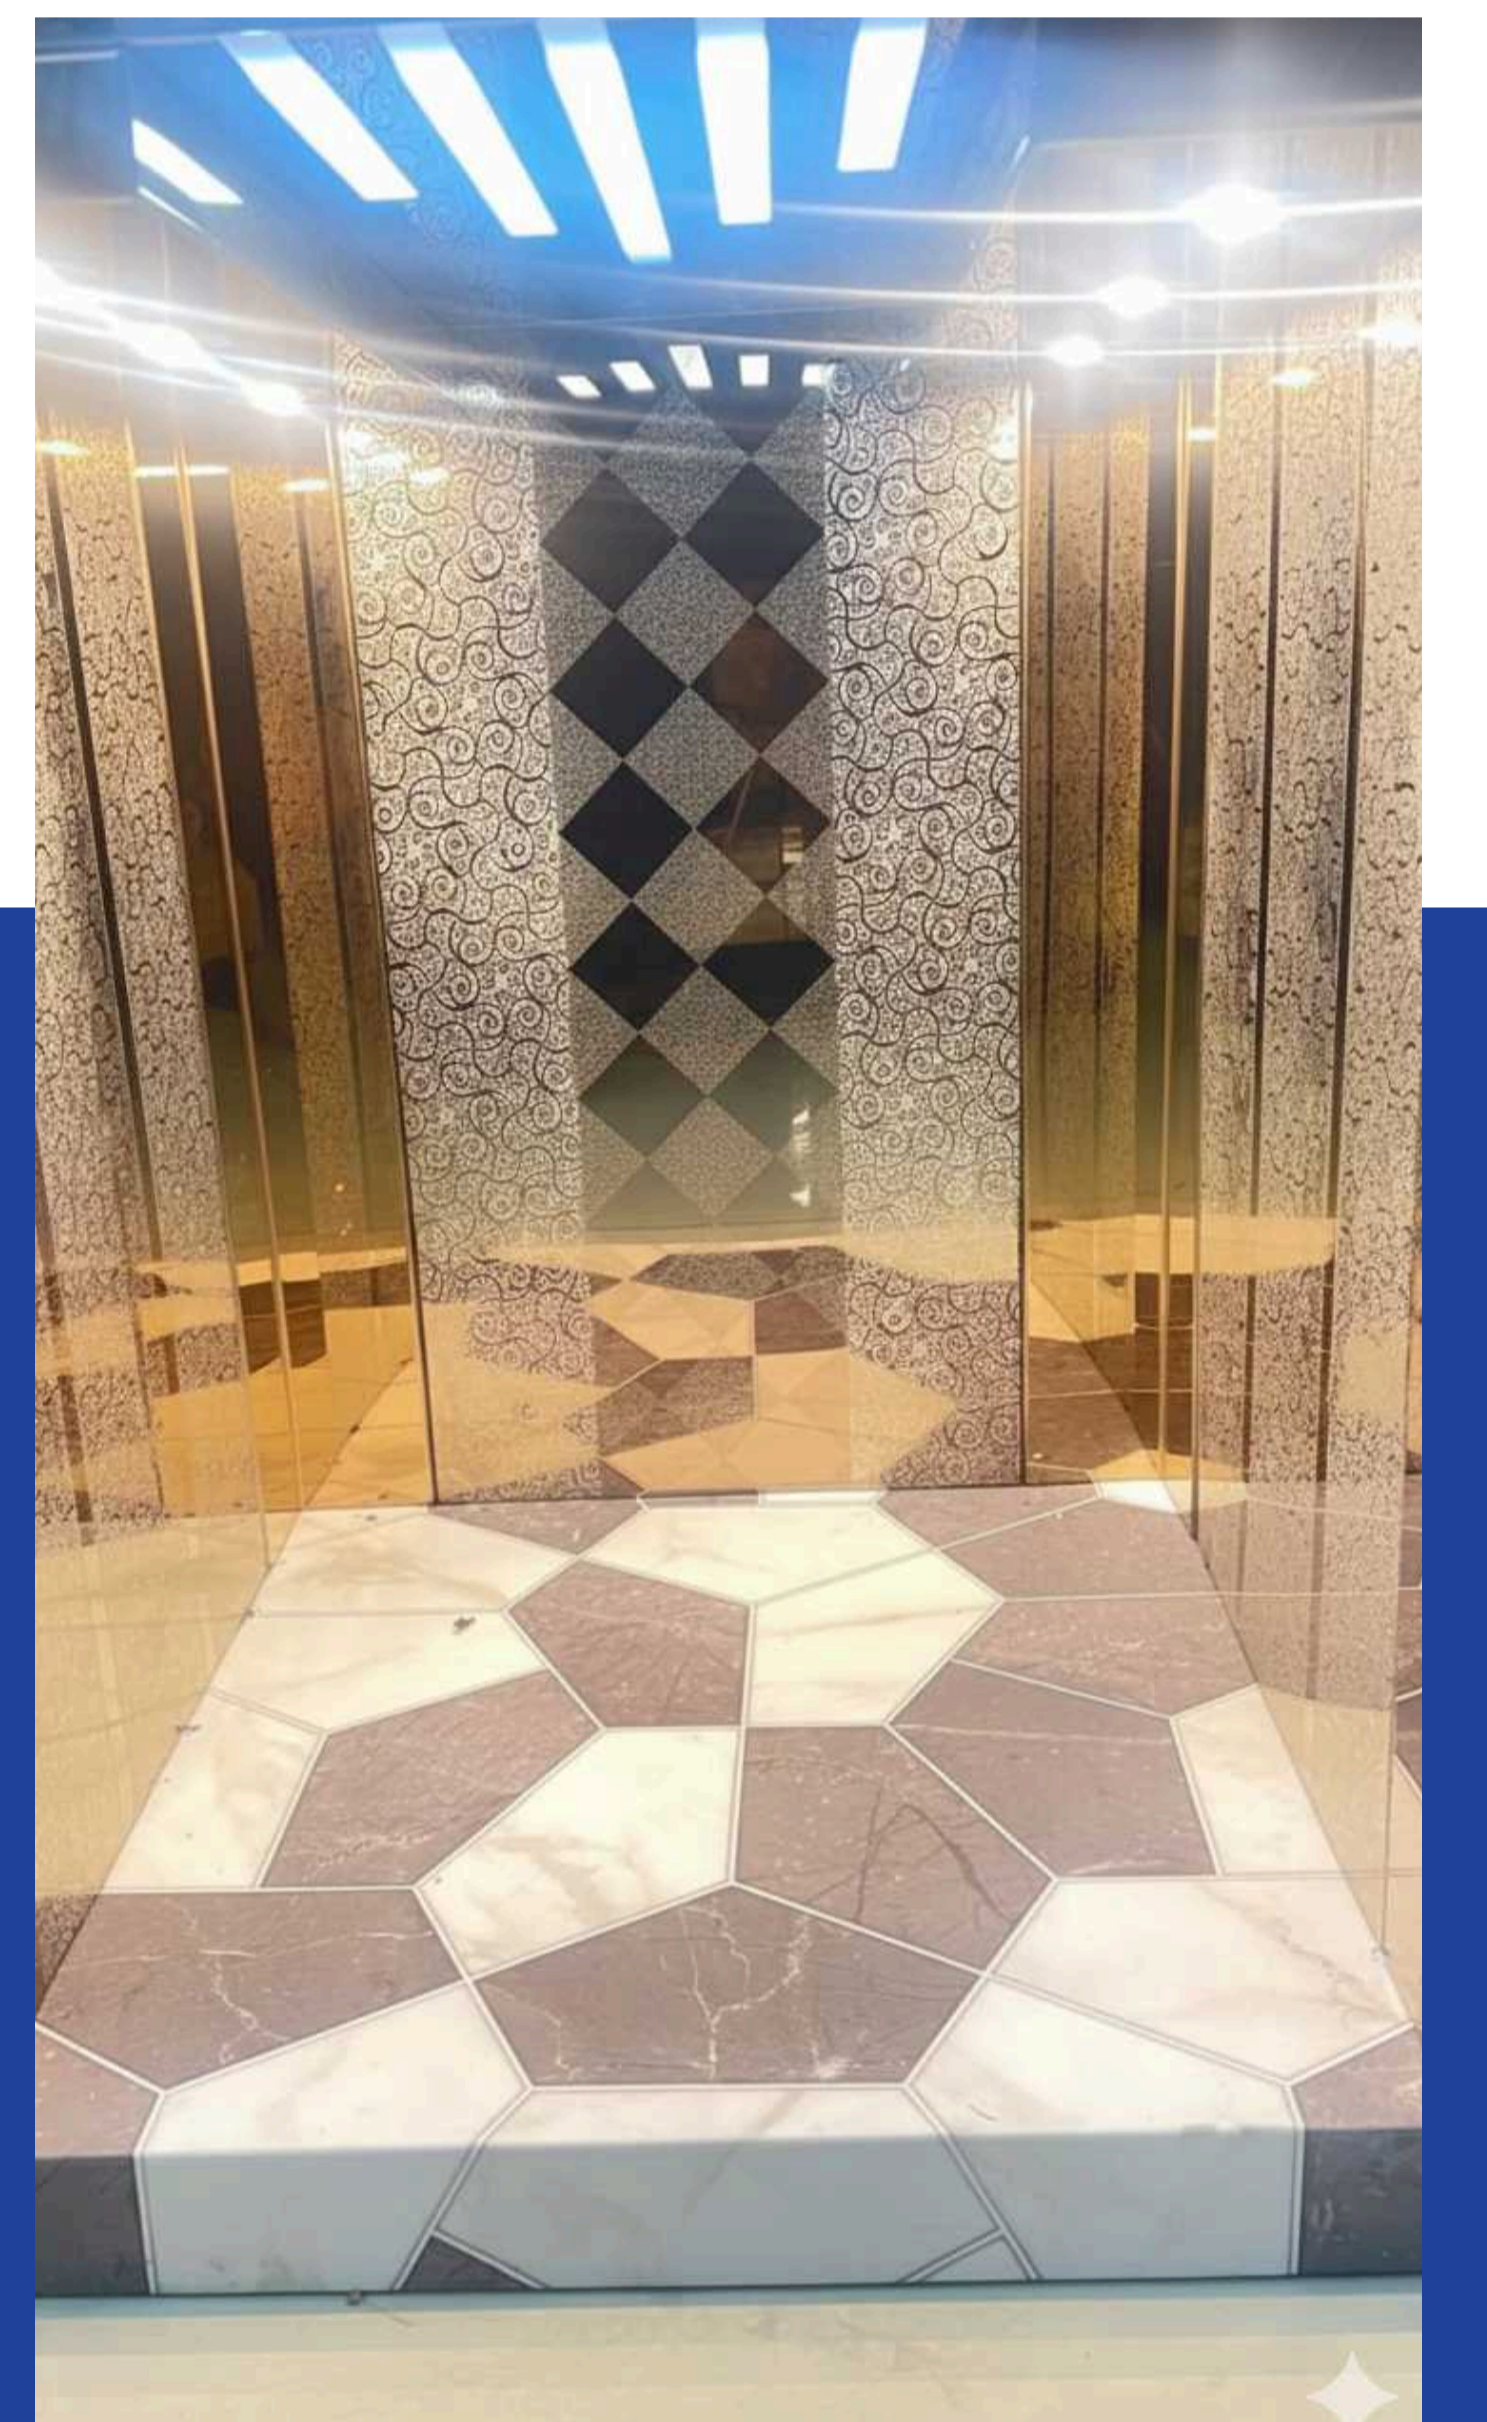

Hydraulic Home Lifts

Compact Luxury for Homes

Our Hydraulic Home Lifts are the perfect solution for low-rise buildings and villas, offering quiet operation, easy installation, and aesthetic designs with minimal civil modifications.

Liftswala Wide Application

Liftswala solutions are designed for a wide range of industries and applications. Our experienced engineers assess project requirements and recommend the most suitable lift technology for optimal performance. Powered by advanced gearless systems and permanent magnet motors, our solutions deliver smooth, silent operation and are ideal for machine-room-less installations. Compact design, lower energy consumption, reduced maintenance, and space efficiency together ensure long-term reliability and a lower total cost of ownership.

Gearless Machine

SEG 10S Technical Specifications

Duty Load (Kg)	340 to 544
Speed (m/sec)	1.00 to 1.75
Static Load (Kg)	3400
Sheave Diameter (mm)	Ø240 or Ø320
Power (kW)	2.2 to 5.3
Roping	2:1
Weight of Machine (Kg)	139*

Weight of machine is varies with of selection of sheave, motor and drive system

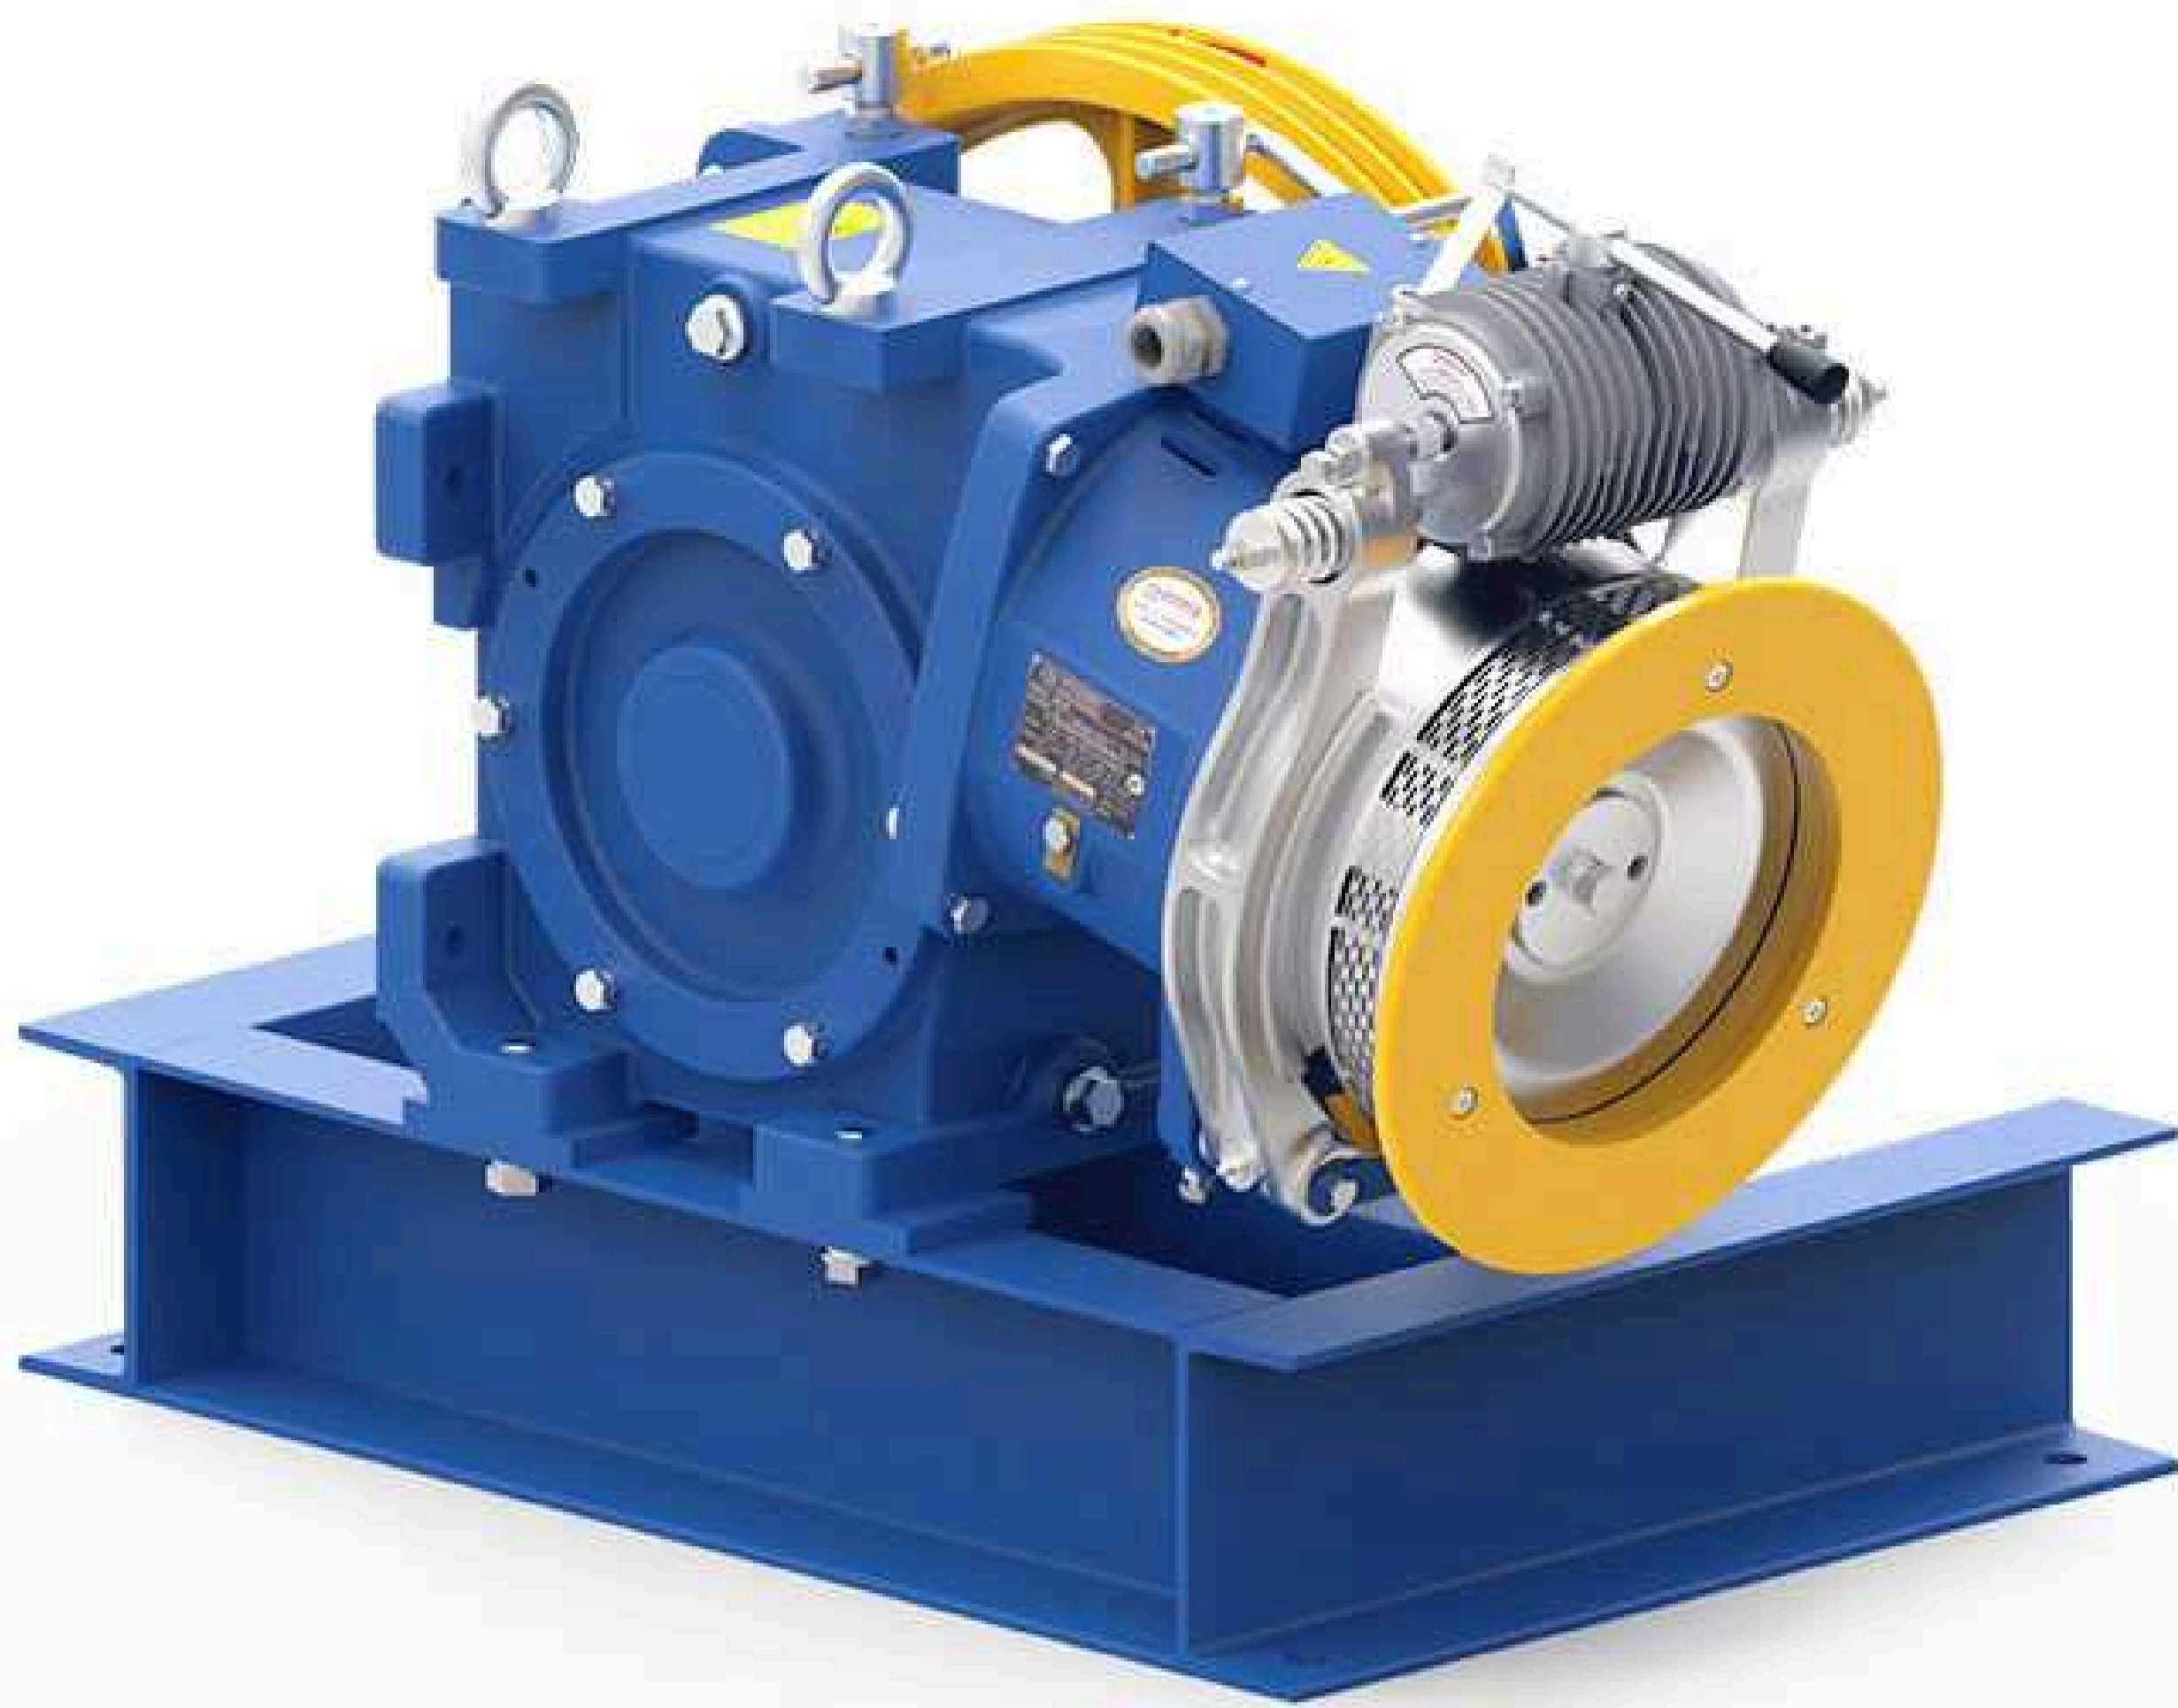

SEG 20S Technical Specifications

Duty Load (Kg)	544 to 680
Speed (m/sec)	1.00 to 1.75
Static Load (Kg)	3400
Sheave Diameter (mm)	Ø240 or Ø320
Power (kW)	3.8 to 7
Roping	2:1
Weight of Machine (Kg)	162*

Weight of machine is varies with of selection of sheave, motor and drive system

Geared Machine

MP 61 Technical Specifications

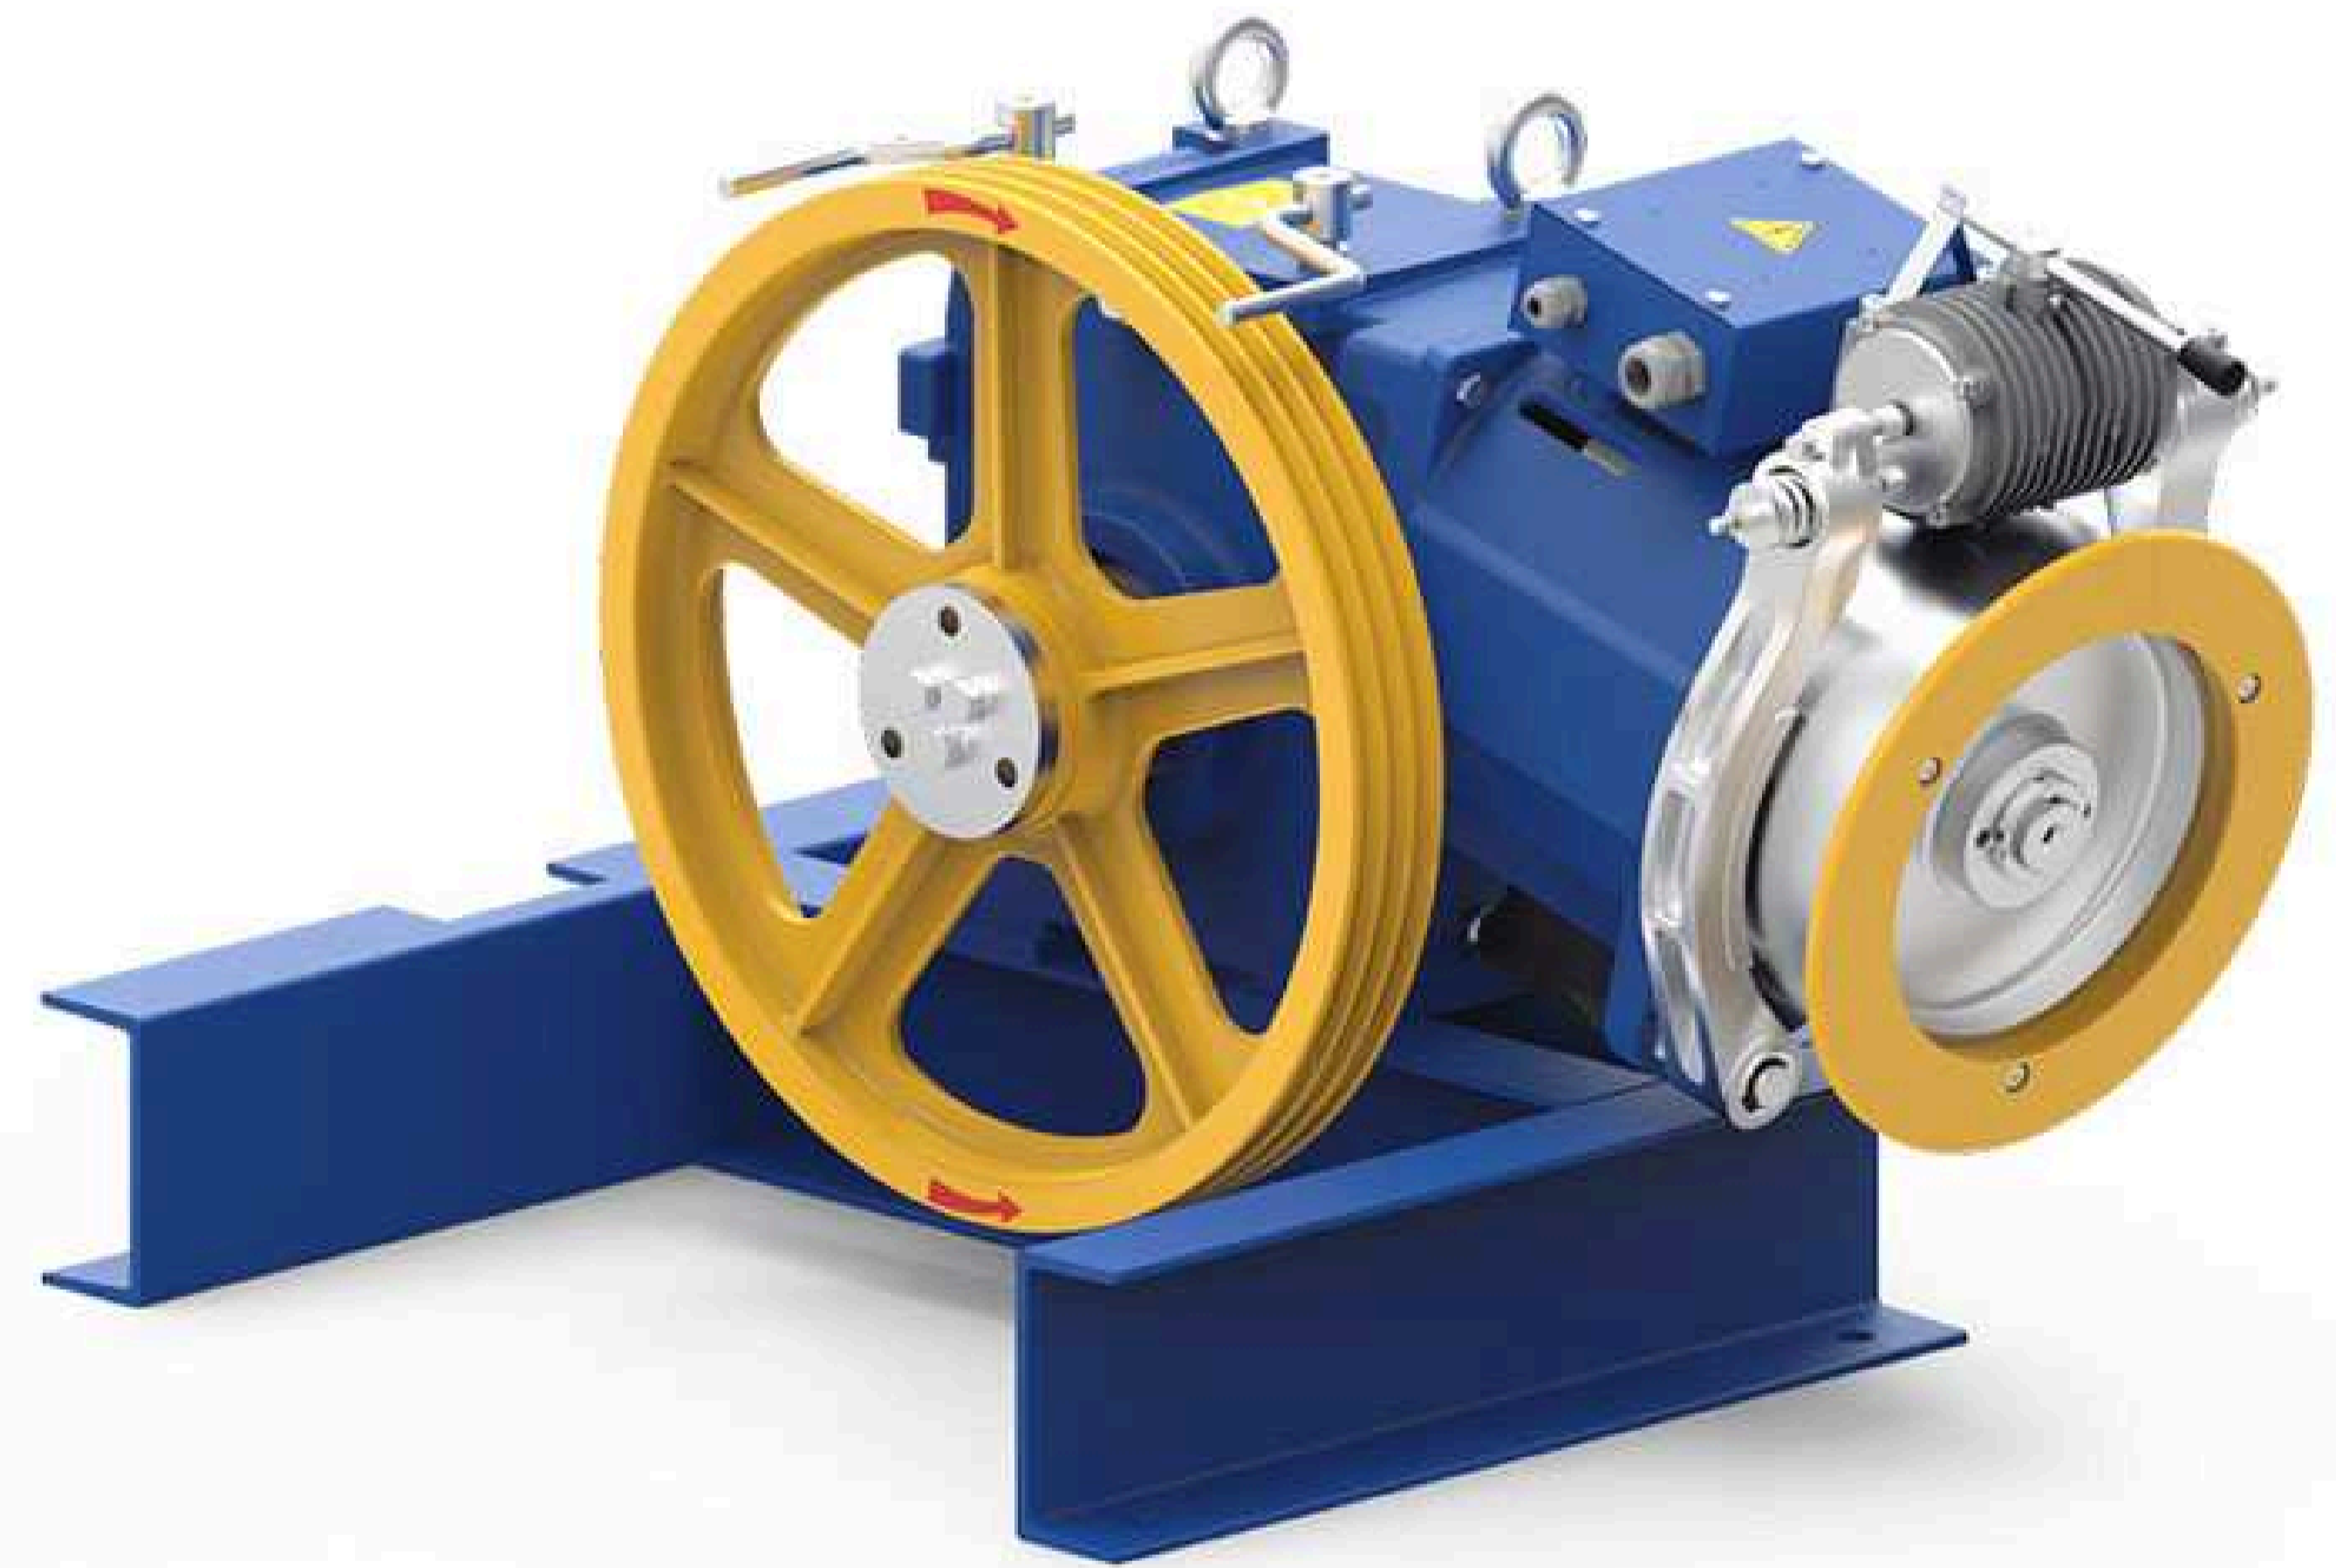

Static Load (Kg)	3000
Gear Ratio	1/41 or 1/52
Power Range (kW) (4 Pole)	4.5 to 5.5
Power Range (kW) (6 Pole)	3.0 to 3.7
Brake Voltage (D.C)	110V / 220V
Sheave Range (mm)	Ø400, Ø460, Ø510, Ø530, Ø560
Oil Capacity (Ltr)	3 Liters
Weight of Machine (Kg)	222 to 262

Weight of machine is varies with of selection of sheave, motor and drive system

Sideron Technical Specifications

Static Load (Kg)	3200
Gear Ratio	1/37, 1/45, 1/55, 2/57, 3/47
Power Range (kW) (4 Pole)	4.5 to 11
Power Range (kW) (6 Pole)	5.5 to 6.7
Brake Voltage (D.C)	48V, 60V, 110V, 220V
Sheave Range (mm)	Ø360 mm to Ø700 mm (Standard: 530, 560, 600)
Oil Capacity (Ltr)	3.5 Liters
Weight of Machine (Kg)	315 kg (with Bed Plate)

Weight of machine is varies with of selection of sheave, motor and drive system

BISON Technical Specifications

Static Load (Kg)	4400
Gear Ratio	1/46, 1/55, 2/46, 2/55
Power Range (kW) (4 Pole)	6.7 to 16.5
Power Range (kW) (6 Pole)	5.5 to 7.5
Brake Voltage (D.C)	48V, 60V, 110V, 220V
Sheave Range (mm)	Ø480 mm, Ø560 mm, Ø600 mm
Oil Capacity (Ltr)	6.0 Liters
Weight of Machine (Kg)	380 (without) to 461 (with Bed Plate)

Weight of machine is varies with of selection of sheave, motor and drive system

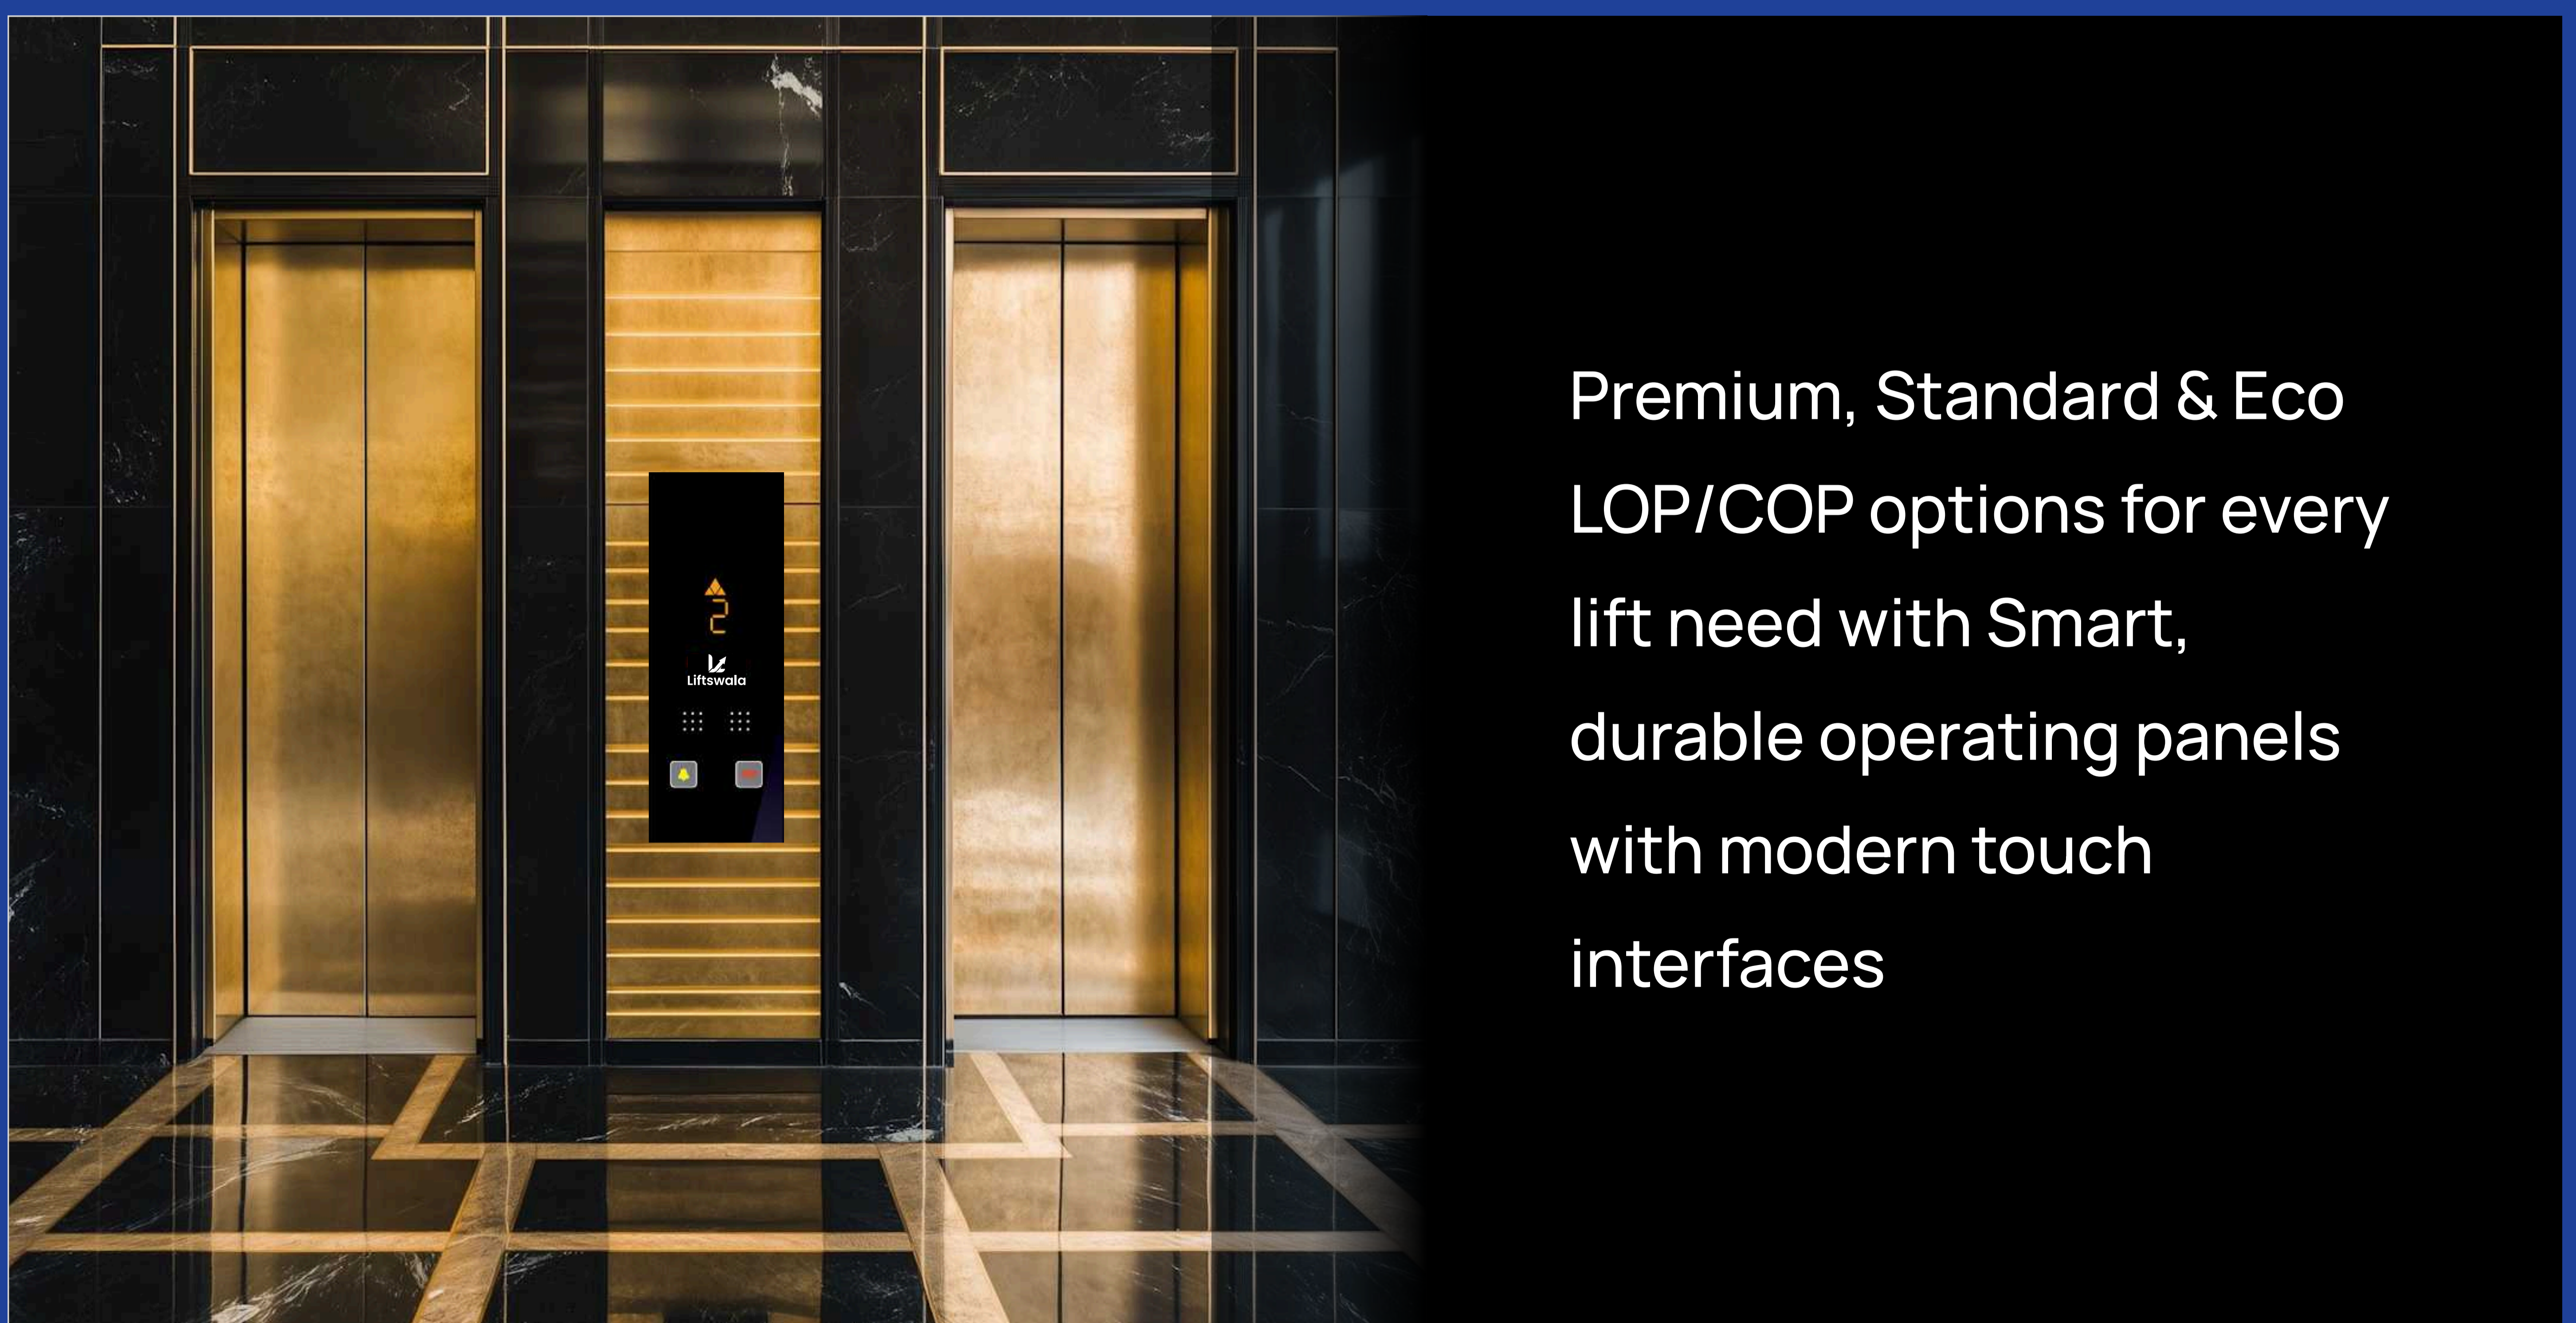

LOP & COP (Landing & Car Operating Panels)

Liftswala offers a versatile range of LOP and COP solutions across Premium, Standard, and Eco categories, designed to match different functional and aesthetic needs.

Liftswala offers a versatile range of LOP and COP solutions across Premium, Standard, and Eco categories, designed to match different functional and aesthetic needs. From fully customizable Android-based capacitive touch screens to modern touch interfaces with toughened glass, and semi-touch push-button panels with acrylic finishes, our panels ensure intuitive operation, durability, and a refined user experience—without compromising on reliability or efficiency.

Premium, Standard & Eco LOP/COP options for every lift need with Smart, durable operating panels with modern touch interfaces

Customizable LOP & COP designs for smooth, intuitive operation, Advanced touch and semi-touch panels built for reliability

ARD / UPS

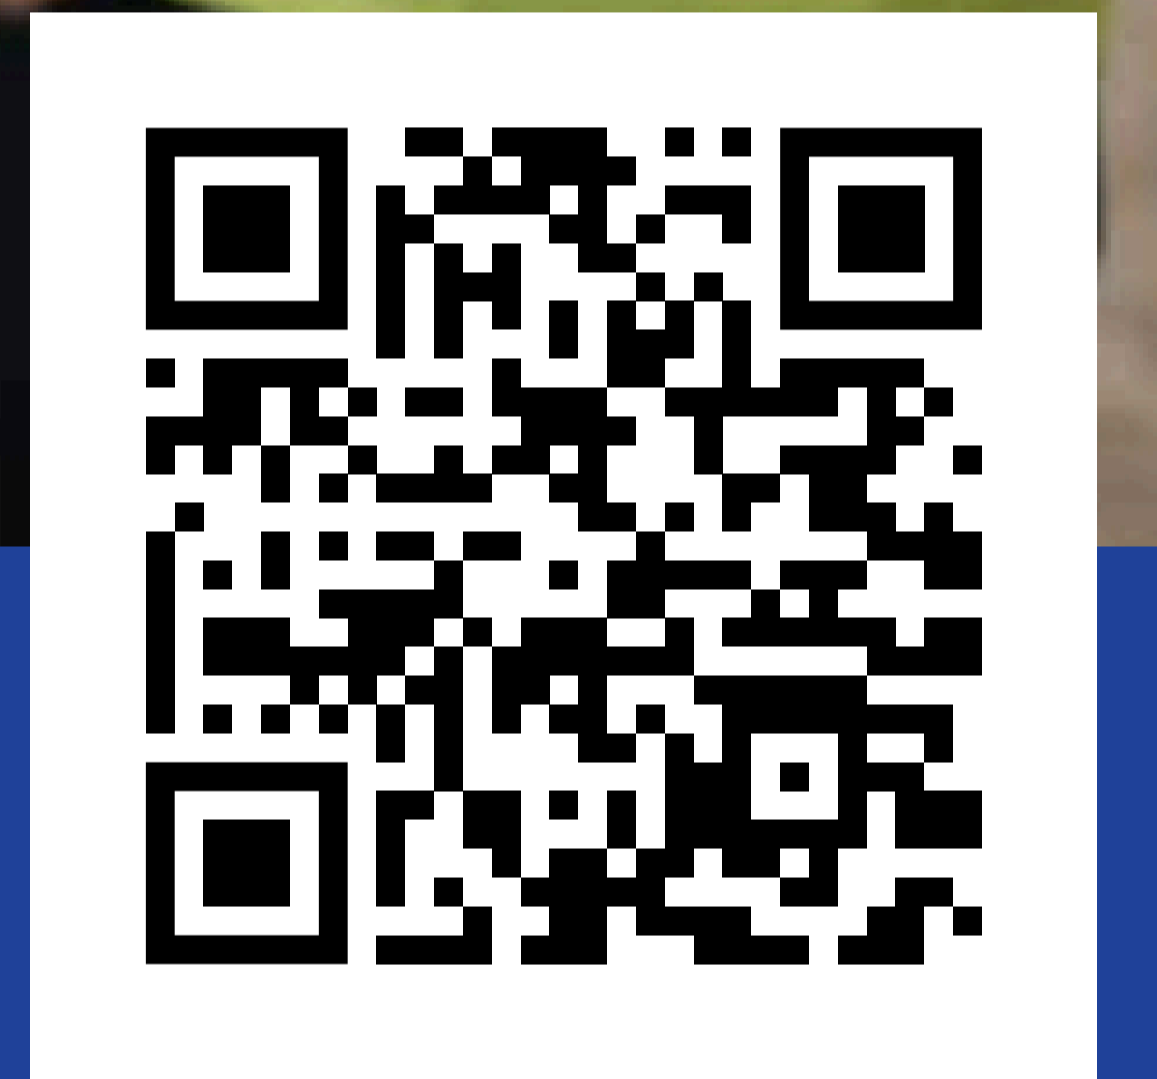

India's Most Proffered ARD / UPS

Available from 5HP to 50HP

- Compact size with inbuilt battery wallmounted cabinet.
- Pan India installation support by our experts.
- Improved charger for Low AH batteries.
- Pure sinwave output with auto shutdown timer.
- Single card solution, easier to service.
- Multiple rescues on a single charge.

Model	5HP, 7.5 HP, 10HP, 15AH
Operating Voltage DC	48 to 72
No of Batteries	4 to 6
Battery Capacity	7 AH
